Freshmen Present Models in Global Studies

Ninth grade global studies students presented to their classmates about iconic architectural monuments from the Egyptian, Greek and Roman golden ages. These presentations focused on

environmental issues threatening these marvels.

The students also created models of their chosen monuments and presented them to the class as part of the project. They were resourceful during this process and showcased models made from a variety of materials, such as cardboard, clay, wood and drywall. Some of the models were even 3D printed! Overall, the students gained valuable insights from the project and were able to demonstrate their skills.

P-TECH Students Present to Board of Education

The Oneida-Herkimer-Madison BOCES Cooperative Board recognized the P-TECH program during its January meeting. Two P-TECH students, Addyson Carrier, a senior from Holland Patent Central School District, and Chelsy Plows, a junior from New York Mills Union Free School District, shared their experiences and spoke on behalf of the program.

The students discussed how they discovered the P-TECH program, what interested them about it and how it felt to join the program. They also discussed the vast opportunities granted to them through the program, as well as their experiences being high school students on a college campus. After each student spoke, they answered questions from the Board. Thank you Addyson and Chelsy for representing the program so well!

Sunshine Club Distributes Gift Bags to Spread Cheer Ahead of Midterm Exams ☀️

P-TECH students faced a full week of midterm examinations this month. To help them start the week off on the right foot, the Sunshine Club delivered goodies to the students taking tests. Each gift bag contained items such as pens, pencils, erasers, fidgets, gum and an inspirational quote. Thank you to the Sunshine Club for your hard work and generosity!

Mistake Tracker Contest

This year, Mrs. Colantuoni's classes created a "mistake tracker" competition. For every mistake a student found, they earned a point for their class and colored in a picture on their tracker. The first class to fill in their tracker won the contest, with the second

period go
students
celebrate!

Mrs. Colantuoni uses this contest as a tool in the classroom. When students find mistakes, it reinforces their understanding of the content. She helps them apply critical thinking skills to understand the error and arrive at the correct solution. This also supports them in developing a growth mindset because they learn to see mistakes as a natural part of the learning process.

Support P-TECH at Chipotle! 🌯

Our next fundraiser for the year is coming up on February 5! You can support the program by eating at Chipotle on Commercial Drive in New Hartford between the hours of 4-8pm and showing the flyer below. You can also order online for pickup using the code **263CYB8**. See below for details and a copy of the flyer!

Academic Club

The Academic Club meets monthly on designated Wednesdays from 2:00-3:30 p.m. During this time, students may work on assignments and get extra support from teachers. The following are the upcoming Academic Club dates:

To attend an Academic Club meeting, students need parent/guardian permission and their own transportation.

Student Ambassadors

Freshman: Cristal Pina Rumaldo

Cristal is from the Utica City School District. Teachers have pointed out that Cristal has a strong work ethic and advocates for herself and others. She also asks inquisitive questions in class, has a positive attitude and lifts the spirits of those around her.

Sophomore: Ayden Knoblauch

Ayden is from the New Hartford Central School District. Ayden is always kind to others and goes out of his way to help whenever he can. He is a creative problem-solver and acts as a leader for his peers. Ayden works very hard, going above and beyond assignment requirements on a regular basis.

Junior: Hailey Dudek

Hailey is from the Whitesboro Central School District. Hailey actively seeks feedback on her work in an effort to continually improve her performance. She is always willing to help other students when they need it as well. Hailey puts significant time and effort into her work, showing how highly she values her education.

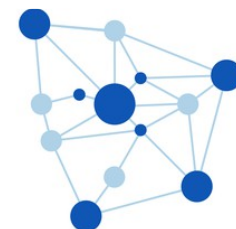

Pathways in Technology Early College High School

A partnership between the Oneida-Herkimer-Madison BOCES, Mohawk Valley Community College, and Mohawk Valley EDGE.
