RE: Assorted Food for Nutrition Services 2025 25-07-3211

The purpose of this memo is to explain the evaluation scoring for the Assorted Food for Nutrition Services 2025 25-07-3211 bid. The vendor awarded has the highest scores per line based on the weighted criteria included in the solicitation. The weighted criteria were developed to maintain compliance with the United States Department of Agriculture regulations for federal programs.

Weighted criteria include purchase price, reputation of the vendor and vendor's goods or services, quality of the vendor's goods or services, extent to which the goods or services meet the needs of the District, and any other relevant factors specifically listed in the request for bid or proposal. The evaluating committee was comprised of our own internal procurement professionals and other relevant Nutrition Services staff.

The estimated expenditure for this bid is significantly lower compared to the estimated spend. Several factors are contributing to this decrease including the type and quantity of items that were awarded on the previous bid, and that several items were not able to be awarded.

If you have any questions, please contact the Nutrition Services Department.

Sincerely,

Suzy Hunter
