SUBJECT: Contract 25-07-5600R-RFP Award Recommendation Automotive Parts and Labor

After careful review and evaluation of the proposals submitted for <u>Contract 25-07-5600R-RFP</u>, it is recommended that any and all vendors scoring seventy percent (70%) or higher on the <u>Evaluation Matrix</u> shall be granted the contract. This recommendation is based on a vendor's ability to offer the best value to the district.

The contract will be valid for one (1) year through June 30, 2026. Unless either party provides a written notice of non-renewal at least thirty (30) days in advance of the termination date, the contract will automatically renew for four (4) consecutive one (1) year terms through June 30, 2030. Upon mutual agreement, proposed prices may be extended beyond the firm price offer date. This extension will be on a month-to-month basis for up to six (6) months.

The following recommended vendors will supply automotive parts and labor services to Cypress-Fairbanks ISD's vehicles and equipment:

- 1. *Elite Auto Experts* and *Lonestar Chevrolet* will provide light duty body repairs. These services will address the current gap in the district's capabilities to repair units involved in major incidents as well as ensuring timely completions of external repair needs.
- 2. **Rush Truck Center** will provide parts and services specific to <u>BlueBird</u> school bus(es) and other vehicles associated with our fleet.
- 3. *Holt Truck Centers* will provide parts and services specific to <u>International</u> school bus(es) and other vehicles associated with our fleet.
- 4. **Beck & Masten Buick GMC Truck** will provide parts and services specific to <u>Chevrolet</u> and <u>GMC</u> as well as other vehicles associated with our fleet.
- 5. *Mac Haik Ford* will provide parts and services specific to Ford and other vehicles associated with our fleet.
- 6. *O'Reilly Auto Parts* will provide parts only. These parts are associated with and may not be specific to the manufacturer. This includes small non-stocking parts.
- 7. *Chalks Truck Parts* will provide alternative options for engine parts, brakes, suspension parts, and generic bus parts.
- 8. **Bucks Wheel and Equipment** will provide alternative options for engine parts, brakes, suspension parts, generic bus parts, and specialized safety equipment for special needs transportation.
- 9. *Batteries Plus* will provide alternative options for batteries associated with fleet vehicles and associated equipment.

In the event that specific components are unavailable due to inventory shortages and/or backorders, these vendors will offer viable alternatives as a resolution. This flexibility will enable the district to maintain service continuity while optimizing cost through comparative pricing and available evaluations.

Should you require any additional information and/or have any further questions regarding this recommendation, please do not hesitate to contact me.

Robert Williams
