FACILITIES MASTER PLANNING: PHASE TWO

Facilities Task Force Survey Feedback

May / June 2025

[Burbank Early Childhood School](#)

[Hastings Middle School](#)

[Jones Middle School](#)

[Overall master plan priorities](#)

Burbank Early Childhood School

Which option do you prefer for Burbank Early Childhood School?

7 responses

- **Repair** — address the physical needs of the building (\$16,530,000; tentative construction timeline: summer work)
- **Renovate** — address the physical and educational adequacy needs (\$36,790,000; tentative construction timeline: 1 academic year + summers)
- **Rebuild** — address the physical and educational adequacy needs (\$35,330,000; tentative construction timeline: 1 academic year + summers)

Are there any options that should be eliminated?

- Renovate
- Renovation
- renovate
- Repair

Are there any other thoughts you would like to share about the Burbank options?

- If we do not take care of Burbank now we will likely never do it. Rebuild it and do it right

Hastings Middle School

What would you prefer for Hastings Middle School?

8 responses

- **Repair** — address the physical needs of the building (\$59,700,000; tentative construction timeline: summer work)
- **Renovate** — address the physical and educational adequacy needs (\$155,280,000; tentative construction timeline: 3 academic years + site)
- **Rebuild** — address the physical and educational adequacy needs (\$110,800,000 or \$130,430,000, depending on the option; tentative construction timeline: 2 to 2.5 academic years + site, depending on option)

Of the Rebuild options for Hastings, which do you prefer?

8 responses

- **Rebuild D** — students stay in current Hastings during construction (\$110,800,000; tentative construction timeline: 2 academic years + site)
- **Rebuild E** — students in modular classrooms during construction (\$130,430,000; tentative construction timeline: 2.5 academic years + site)

When thinking long-term about the Hastings site, if a rebuild option is the preference of the community, which location do you think is the best, long-term placement for the new building?

8 responses

- Where the building currently sits, at the corner of Hastings Lane and Reed Road
- Where the football field and track currently sit, on the western side of the Hastings site

Are there any options that should be eliminated?

- Renovation and repair
- Renovate B
- renovate and repair
- Repair

Are there any other thoughts you would like to share about the Hastings options?

- Building location is important but \$20 million in savings and no portable classrooms.
- I don't think it is worth \$20M to have the building at the corner. The football stadium would also be great at the corner, and match Wellington across the street.
- \$5more a month to keep the building where it leikley should be on the corner of Reed and Hastings Lane.
- It is difficult to justify an extra \$20M for the building on the corner, if all else is equal.

Jones Middle School

What do you prefer for Jones Middle School?

8 responses

- **Repair** — address the physical needs of the building (\$48,590,000; tentative construction timeline: summers)
- **Renovate** — address the physical and educational adequacy needs (\$135,190,000 to \$153,030,000, depending on the option; tentative construction timeline: 2 to 2.5 academic years + site)
- **Rebuild** — address the physical and educational adequacy needs (\$127,020,000 to \$144,750,000, depending on the option; tentative construction timeline: 2.5 to 3 academic years + site)

Of the Renovate options, which do you prefer?

5 responses

- **Renovate A — all students in modulares at Jones** (\$144,890,000; tentative construction timeline: 2 academic years + site)
- **Renovate A — one grade in modulares at Jones** (\$138,370,000; tentative construction timeline: 2.5 academic years + site)
- **Renovate A — all students at the old Hastings during construction** (\$135,190,000; tentative construction timeline: 2 academic years following new Hastings construction)
- **Renovate B — all students in modulares at Jones** (\$153,030,000; tentative construction timeline: 2 academic years + site)
- **Renovate B — all students at the old Hastings during construction** (\$146,400,000; tentative construction timeline: 2.5 academic years + site)

Of the Rebuild options, which do you prefer?

7 responses

- **Rebuild A — all students in modulares at Jones; RETAIN central mall facade** (\$144,890,000; tentative construction timeline: 2 academic years + site)
- **Rebuild A alternate — all students in modulares at Jones; REPLACE central mall facade** (\$134,740,000; tentative construction timeline: 2.5 academic years + site)
- **Rebuild B — all students at the old Hastings during construction; RETAIN central mall facade** (\$138,430,000; tentative construction timeline: 3 academic years + site)
- **Rebuild B alternate — all students at the old Hastings during construction; REPLACE central mall facade** (\$127,020,000; tentative construction timeline: 2.5 academic years + site)

If a rebuild option is the preference of the community for Jones, what is your opinion of the best long-term solution for the historical central mall facade?

7 responses

- I am in favor of prioritizing historical preservation and spending additional money to save the building's central mall facade.
- I am in favor of reducing the overall project costs and rebuilding all of Jones, with the understanding that the district is committed to creating a new facade that honors the likeness and history of the original building.

Are there any options that should be eliminated?

- Renovation and repair
- Renovate is too expensive and not worth kids living in trailers for years.
- repair and renovate
- Repair

Are there any other thoughts you would like to share about the Jones options?

- Save \$20 million on Hastings and \$10 million at Jones to help pay for Burbank.
- The two middle schools are collectively too big to operate on the Hastings site, even for a few years. The neighbors will get crushed by traffic.
- I am fine with the central mall facade going away and not forcing the architecture to replicate it, but creating a new version of that facade that is modern.

Overall master plan priorities

Please share your overall sentiment on swing space for students during construction at the middle schools.

8 responses

- I am in favor of utilizing temporary modular classrooms as swing space, if needed, to expedite the construction timeline and the time that students are out of the building.
- I am in favor of utilizing existing classroom space in the district as swing space, if needed, even if that means a longer timeline for construction and for students to be out of their school building.
- I have no preference.

Select the response below that best reflects your priorities when it comes to the costs of the projects. Please note that there is no zero cost option and that, at a minimum, the schools have urgent repair and maintenance needs that will need to be addressed.

8 responses

Are there any other thoughts you would like to share about master plan priorities?

- Great work developing such thoughtful options.
- to align the educational experience with the elementary schools and the high school, rebuild for both schools is your best option. It is an investment in our kids, which should be a no brainer.
- Emphasis should be on long term vision and sustainability for the community and better education spaces for the children.
