

Updated

Booster

FAQ

Who is eligible for the updated booster?

Everyone 5+ who has had their primary series should get the updated booster.

What is the updated booster?

The previous boosters targeted one strain while the updated boosters target the Omicron strains that have been causing the most recent cases.

When can I get the updated booster?

You are eligible to get the updated booster at least 2 months following any COVID vaccine or booster dose or after 3 months following infection.

Why was a new booster developed?

The FDA authorized the updated booster after reviewing data showing the bivalent boosters improved protection against recently circulating variants.

Where can I find the updated booster?

- Check with your local pharmacy or medical care provider.
- Find a vaccine near you at [MyTurn.ca.gov](https://www.MyTurn.ca.gov) or by calling 1-833-422-4255.
