

Childcare Expulsion or Suspension

If you are a parent/guardian and have received word from your child's childcare facility that he/she may be at risk of suspension or expulsion, find the resource below that best describes the level of service your child is currently receiving.

If you are an administrator/ staff member at a childcare facility that has implemented best practice strategies and are still in need of support working with a child, find the resource below that best describes the level of service the child is receiving.

If the student receives services from your local Early Intervention Provider (birth to three or the CAIU) or support from the Early Learning Resource Center (ELRC) and/or Community Connections for Children (formally Childcare Consultants), please reach out to them directly to receive additional program support.

If the student DOES NOT have services from your local Early Intervention Provider (birth to three or the CAIU) or support from the Early Learning Resource Center (ELRC) and/or Community Connections for Children (formally Childcare Consultants), call Kim Alloway from Community Connections for Children at 717-881-2306 or 1-800-864-4925.

After calling Kim Alloway, a team member from either the Early Learning Resource Center (ELRC)/Community Connections for Children or through the CAIU Rapid Response Team will schedule an observation.

What Does a Rapid Response Look Like?

- Community Connections for Children will send a Rapid Response request to the CAIU
- CAIU Rapid Response Team contacts the Childcare Director/Teacher to set up a time to visit
- Release form is sent to the Childcare Director for the parent(s) to sign
- Interview, observation, and data collection will be completed on the predetermined date
- Talk with the Director/Teacher at end of the observation to assure observation was an accurate reflection of the child
- Responder will review the observation, data, and interview to generate a list of strategies/suggestions
- Meet with center and family to review and select strategies/suggestions
- Other resources may be offered including: Social Work, OT or PT input, referral for screening/evaluation at the CAIU, community referral links (i.e. PCIT, IBHS Services, IECMH)
- Responder will create materials requested and model their implementation
- Responder will check-in within 3-4 weeks to determine if strategies were effective
