Includes, but not limited to:

Classroom Instructors, Special Education Instructors, Interventionists, Child Guidance Counselors, Instructional Specialists/Coaches, Library Media Specialists, Social Workers, Speech Therapists, Occupational Therapists, Certified Mental Health Specialists, and Non-Administrative District Personnel

Evaluation Plan Vision:

The vision for the Certified Evaluation Plan is to have every student taught by effective certified staff. The goal

is to create a fair and equitable system to measure effectiveness and act as a catalyst for professional growth. The Kentucky Framework for Teaching and the Specialist Frameworks for Other Professionals are designed to support student achievement and professional practice through the domains of:

Performance Measures: Framework for Teaching/Specialist Frameworks for Other Professionals

Planning
Environment
Instruction
Professionalism

When certified staff fall under multiple frameworks, the evaluator will determine evaluatee's framework within the first 30 days of employment. Best practice for determining the evaluatee's framework would include discussion with the evaluatee.

The frameworks also include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodation for individual needs, effective technology integration, and student assumption of responsibility. It provides structure for feedback and continuous improvement through individual goals that target professional growth, thus supporting overall school improvement. Evidence documenting professional practice will be situated within one or more of the four domains of the framework. Performance will be rated for each component according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each domain.

Sources of Evidence

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how educators respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development. Evaluators must use the following categories of evidence in determining overall ratings:

REQUIRED: Sources of Evidence

- Self-Reflection/Professional Growth Plan
- Observation(s)/worksite visit(s)

OPTIONAL: Sources of Evidence

- Multiple Measures of Student Learning
- Products of Practice
- Other Sources, which should yield information related to the evaluatee's practice within the Performance Measures, and may be provided by evaluators and evaluatees, include but are not limited to:
 - ◆ team-developed curriculum units/pacing documents
 - ◆ communication logs
 - ◆ timely, targeted feedback from mini or informal observations
 - ◆ student surveys
 - ◆ student work

- ◆ student formative and/or summative course evaluations/feedback
- ◆ minutes from PLCs
- ◆ minutes from other committee meetings
- ◆ teacher reflections and/or self-reflections
- ◆ teacher interviews
- ◆ teacher committee or team contributions
- ◆ parent engagement surveys
- ◆ video lessons
- ◆ records of student and/or teacher attendance
- ◆ engagement in school activities outside of contract hours
- ◆ engagement in professional organizations
- ◆ action research
- ◆ other: sources of evidence determined with the collaboration of teacher and administrator that uniquely support educator practice of effectiveness for the content and grade level.

Measures of Effectiveness

Self-Reflection and Professional Growth Plan

All teachers and other professionals participate in Self-Reflection and the Professional Growth Plan each year. Self-reflection should occur prior to initial Professional Growth Plan development. The Professional Growth Plan will address realistic, focused, and measurable professional goals. The plan will connect data from multiple sources including classroom observation feedback, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection. In collaboration with the administrators, teachers will identify explicit goals that will drive the focus of professional growth activities, support, and ongoing reflection. Reflective practices and professional growth planning are continuous processes. The certified staff (1) reflects on his or her current growth needs based on multiple sources of data and identifies an area or areas for focus; (2) collaborates with his or her administrator to develop a professional growth plan and action steps; (3) implements the plan; (4) regularly reflects on the progress and impact of the plan on his or her professional practice; (5) modifies the plan as appropriate; (6) continues implementation and ongoing reflection; and finally, (7) conducts a summative reflection on the degree of goal attainment and the implications for next steps.

Observation/Worksite Visit

The observation/worksite visit process is one source of evidence to determine the effectiveness of professional practice. The supervisor observation/worksite visit will provide *documentation* and *feedback* to measure effectiveness. *Only observations conducted by the evaluator will be used to inform a summative rating.* The rationale for observation is to encourage continued professional growth through critical reflection.

Rating the Performance Measures

The Kentucky Framework for Teaching and the Specialist Frameworks for Other Professionals stand as the critical rubrics for providing educators and evaluators with concrete descriptions of practice associated with specific Performance Measures. When certified staff fall under multiple frameworks, the evaluator will determine evaluatee's framework within the first 30 days of employment. Best practice for determining the evaluatee's framework would include discussion with the evaluatee. Supervisors and educators will be engaged in ongoing dialogue throughout the evaluation cycle. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each Performance Measure at the culmination of an educator's cycle. Supervisors will provide a summative rating for each Performance Measure based on evidence.

Determining the Summative Performance Level

Supervisors are responsible for determining the Summative Performance Level for each school-level certified staff at the conclusion of the summative evaluation year. The Summative Performance Level is determined by the performance ratings given for each Performance Measure. The performance ratings are defined as:

Exemplary: consistently exceeds expectations for effective performance

Accomplished: consistently meets expectations for effective performance

Developing: inconsistently meets expectations for effective performance

Ineffective: consistently fails to meet expectations for effective performance.

For certified, tenured employees in their summative year evaluation cycle, supervisors need to factor in any data and evidence from the two previous formative evaluation cycle years to determine a summative rating for the current year. Evidence is to be documented in the district-approved electronic platform(s) and/or paper forms, which are maintained at the school/department level. The summative form will be submitted to the district for the official personnel file.

For certified, non-tenured employees, each year is a summative evaluation cycle year, so the supervisor would not factor in any data or evidence from previous years to attain the summative rating for the current year.

The evaluator determines the performance rating for each Performance Measure based on evidence that demonstrates the educator's performance that aligns with the framework, district-developed rubrics, and decision rules that establish a common understanding of performance thresholds to which all educators are held. The Summative Rating is then informed by the educator's performance ratings in each of the four Performance Measures using the following decision rules:

CRITERIA FOR DETERMINING A TEACHER'S/OTHER PROFESSIONAL'S SUMMATIVE RATING

IF...	THEN...
Two Performance Measures are rated ACCOMPLISHED, and two Performance Measures are rated EXEMPLARY	Summative Performance Level shall be Exemplary or Accomplished
Two Performance Measures are rated DEVELOPING, and two Performance Measures are rated EXEMPLARY	Summative Performance Level shall be Accomplished
Two Performance Measures are rated DEVELOPING, and two Performance Measures are rated ACCOMPLISHED	Summative Performance Level shall be Accomplished or Developing
Performance Measures 1 OR 4 are rated INEFFECTIVE	Summative Performance Level shall NOT be Exemplary
Performance Measures 2 OR 3 are rated INEFFECTIVE	Summative Performance Level shall be Developing or Ineffective **
Performance Measures 2 and 3 are rated INEFFECTIVE	Summative Performance Level shall be Ineffective **

****An Ineffective Rating indicates a Corrective Action Plan for professional growth is required (see page 22)**

Observer Initial Evaluation Training and Testing/Observer Calibration Training

All new administrators serving as evaluators of certified personnel are required to complete the KDE-approved initial certified evaluation training before conducting formative or summative observations. After their initial year of the KDE-approved evaluation training, evaluators must obtain a minimum of six hours annually of EILA-approved training for evaluation purposes. To ensure consistency of observations, evaluators must complete the district-determined observer calibration training annually. The training allows observers to develop a deep understanding of how the four Performance Measures of the Kentucky Framework for Teaching (FFT) are applied in observation.

- Only evaluators who have completed the district-determined observation training can conduct formative and summative observations for the purpose of evaluation. In the event that a supervisor has yet to complete the district-determined observation training, the district will provide the following supports:
 - A substitute observer will be assigned by the superintendent or designee from a pool of current and retired district administrators who have been trained to evaluate, ensuring certified staff have access to trained observers. In such cases, the observation data provided by a substitute observer is considered a valid source of evidence only if the supervisor is present in the observation.
 - Additional training will be provided by district personnel as needed.
 - Any supervisors who are hired late will be required to complete the district-determined observation training. Additional support/training will be provided by district personnel if needed and a substitute administrator will be assigned for any observations conducted during that time.

Self-Reflection and Professional Growth Plan

All building-level and district-level administrators will complete the self-reflection and develop a Professional Growth Plan each year. Self-reflection improves school administrator practice through ongoing, careful consideration of the impact of leadership practice on student growth and achievement. The Professional Growth Plan will be developed within the first 90 work days and address realistic, focused, and measurable professional goals. The Professional Growth Plan should have a minimum of one goal. Additional goals may be required based on need, as identified by the evaluator. The plan may connect data from multiple sources, including site-visit conferences, previous evaluations, data on student growth and achievement, and professional growth needs identified through self-assessment and reflection.

Site Visits for Principals (formal site visits are not required for Other Building-Level or District-Level Administrators)

Site visits are a method by which the superintendent/designee may gain insight into the administrator's practice in relation to the standards. During a site visit, the superintendent or designee will discuss various aspects of the job with the administrator and will use the administrator's responses to determine issues to explore further with the faculty and staff. The district template will be used during the site visit conferences and the recommended mid-year review to guide and document the reflections and any modifications to the plan.

Multiple Measures of Student Learning

Multiple measures of student learning is one source of evidence to determine effectiveness of professional practice. These multiple measures are assessments and data that demonstrate student learning. The measures used for the purposes of evaluation will be determined by the evaluator and evaluatee. Measures of student learning could include, but are not limited to: state assessments, formative assessments, summative assessments, benchmark assessments, ACT, Career Readiness, ACCESS, Impact KY Survey, and other school-based measures of student learning.

***Late Hires/Leaves of Absence (not reporting to work for 60 or more consecutive school days):**

Administrators must have a minimum of one site visit (formal or summative). All other requirements remain the same. Timelines should be adjusted accordingly, documented in writing and signed/dated by evaluatee and evaluator.

****Instructional Calendar Changes (i.e. snow day)** - Timelines may need to be adjusted if the instructional calendar is changed.

Observer Initial Evaluation Training and Testing/Observer Calibration Training

All new administrators serving as evaluators of certified personnel are required to complete the KDE-approved initial certified evaluation training before conducting formative or summative observations. After their initial year of the KDE-approved evaluation training, evaluators must obtain a minimum of six hours annually of EILA approved evaluation training prior to conducting observations for the purpose of evaluation. To ensure consistency of observations, evaluators must complete the district-determined observer calibration training annually. The training allows observers to develop a deep understanding of how the four Performance Measures of the Kentucky Framework for Teaching (FfT) are applied in observation.

- Only supervisors who have completed the district-determined observation training can conduct formative and summative observations for the purpose of evaluation. In the event that a supervisor has yet to complete the district-determined observation training, the district will provide the following supports:
 - A substitute observer will be assigned by the superintendent or designee from a pool of current and retired district administrators who have been trained to evaluate, ensuring certified staff have access to trained observers. In such cases, the observation data provided by a substitute observer is considered a valid source of evidence only if the supervisor is present in the observation.
 - Additional trainings will be provided by district personnel as needed.

Any supervisors who are hired late will be required to complete the district-determined observation training. Additional support/training will be provided by district personnel if needed and a substitute administrator will be assigned for any observations conducted during that time.

Administrator Evaluation Plan Components – Overview and Summative Model The following graphic outlines the summative rating model for Principals, Other Building-Level Administrators, and District-Level Administrators.

Evaluators will look for trends and patterns in practice across multiple types of evidence and apply their professional judgment based on this evidence when evaluating an administrator. The role of evidence and professional judgment in the determination of ratings on standards and an overall rating is paramount in this process. However, professional judgment must be grounded in the common framework identified: The Kentucky Principal Standards, which are aligned to the PSEL.

The Kentucky Principal Standards (PSEL)

The Performance Standards provide the structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall student achievement and school improvement. Evidence supporting an administrator’s professional practice will be situated within one or more of the 10 standards. Performance will be rated for each Performance Measure according to the four performance levels: Ineffective, Developing, Accomplished, and Exemplary. It is expected that most administrators will maintain an Accomplished rating but will occasionally have exemplary performance on the Performance Measures at any given time. The summative rating will be a holistic representation of performance, combining data from multiple sources of evidence across each standard.

The use of professional judgment based on multiple sources of evidence promotes a more holistic and comprehensive analysis of practice, rather than over-reliance on one individual data point or rote calculation of practice based on predetermined formulas. Evaluators will also take into account how evaluatees respond to or apply additional supports and resources designed to promote student learning, as well as their own professional growth and development.

Determining the Summative Rating

Superintendent/designee is responsible for determining the Summative Rating for each principal, other building-level administrator, and district-level administrator at the conclusion of their summative evaluation year. The Summative Rating is determined by performance ratings given for each Performance Measure. The performance ratings are defined as:

Exemplary: consistently exceeds expectations for effective performance

Accomplished: consistently meets expectations for effective performance

Developing: inconsistently meets expectations for effective performance

Ineffective: consistently fails to meet expectations for effective performance.

An administrator's Summative Rating is determined by the evaluator based on the ratings on each of the four Performance Measures, using the sources of evidence and professional judgment. Evidence is to be documented in the district-approved electronic platform(s) and/or paper forms, which are maintained at the school/department level. The summative form will be submitted to the district for the official personnel file. Next, the evaluator will use the following decision rules for determining the Summative Rating:

Decision Rules Matrix 1: Determining the Ratings for Each Performance Measure

IF...	THEN...
The Performance Measure has more than one standard and those standards are given the exact same rating	The Performance Measure rating shall be the rating given for those standards.
The Performance Measure has more than one standard and those standards are given different ratings	The Performance Measure rating shall be based on the sources of evidence and the evaluator's professional judgment.

Decision Rules Matrix 2: Determining the Summative Rating using the Performance Measures Ratings

IF...	THEN...
Two Performance Measures are rated ACCOMPLISHED and two Performance Measures are rated EXEMPLARY	Summative Rating shall be Exemplary or Accomplished
Two Performance Measures are rated DEVELOPING and two Performance Measures are rated EXEMPLARY	Summative Rating shall be Accomplished
Two Performance Measures are rated DEVELOPING and two Performance Measures are rated ACCOMPLISHED	Summative Rating shall be Accomplished or Developing
One of the Performance Measures is rated INEFFECTIVE	Summative Rating shall NOT be Exemplary
Two Performance Measures are rated INEFFECTIVE	Summative Rating shall be Developing or Ineffective**
Three or more Performance Measures are rated INEFFECTIVE	Summative Rating shall be Ineffective**

** An Ineffective Rating indicates a Corrective Action Plan for professional growth is required (see page

Corrective Action Plan (CAP)

A corrective action plan, with measurable goals that are tied to the performance measure of concern, may be written at any time during the school year, but shall be written if evaluatee receives an “Ineffective” on the Final Summative Form.

Corrective action plans shall be reviewed continuously until performance is judged to meet the evaluation standards. Review of corrective action plans shall be documented on the corrective action form.

The Corrective Action Plan is a plan developed by the evaluator, at any time during the school year, in collaboration with the evaluatee, when documented unsatisfactory performance is observed, or when an “Ineffective” rating is indicated on any Final Summative Evaluation Standard. Specific assistance and activities are identified in the Corrective Action Plan and progress towards identified goals is monitored. The evaluator and the evaluatee shall specifically identify and list, in writing

- 1** Corrective Action Plan measurable goals and objectives
- 2** Procedures and activities designed to achieve Corrective Action Plan goals and objectives
- 3** Targeted dates for appraising the evaluatee’s improvement towards the identified Corrective Action Plan goals and objectives

Employees who fail to meet the measurable goals identified for them may not be recommended to the Superintendent for rehire. If the Superintendent chooses to not renew the contract, the employee will be notified by May 15th.

A corrective action plan may be developed for two purposes: (1) when improvement is needed to correct one or two critical deficiencies in performance criteria that cannot wait for the formal observation and summative conference; (2) after the formal observation and/or during the summative evaluation conference. When the CAP is developed after the summative conference, no more than 3 specified Performance Measures should be denoted for improvement at any given time. When the evaluatee meets specified areas, another area may be added.

NOTE: It is the evaluator’s responsibility to document all actions taken to assist the evaluatee in improving performance towards Corrective Action Plan goals and objectives. If the evaluator and evaluatee cannot agree on the Corrective Action Plan goals and objectives, a third-party, non-binding mediation shall be requested by either the evaluator or evaluatee. Such a request shall be made in writing within 5 working days of the initial dispute to the Certified Evaluations Appeals Panel Chair, or designee. If the dispute is not resolved through mediation, the evaluatee may appeal through the district’s Grievance Procedure.
