

**Re: Type I Diabetes**

Dear Parent/Guardian,

Keeping students safe and healthy at school continues to be the goal of the San Mateo-Foster City School District's Nursing Department. Supporting students diagnosed with Type I diabetes continues to be a priority and we appreciate your help in assisting us in that effort.

**During the summer, please have your child's medical team complete and return the attached Diabetes Packet. Also, please be sure your child's most recent orders are included and return your paperwork as soon as possible.**

- **A signed release of medical information form must be submitted each school year so that the SMFCSD nursing team can speak directly to your child's medical care team. This ensures an updated and quick response to questions, concerns or changes in orders and also allows the SMFCSD nursing team to discuss your child's diabetes care at school.**
- **Remember to inform the school immediately of ANY changes in your child's diabetes management. Changes in the diabetes orders or method of insulin delivery (i.e. injection, pen, pump, etc.) will only be accepted from the managing medical team. Please remember to always provide written copies of the change in orders to the school as the most current set of orders on file will be followed.**
- **Maintaining a two-week supply of diabetic supplies for school management is important – including: method of insulin delivery (injection, pump or pen), insulin, backup insulin, syringes, a SHARPS container, fast acting sugary snacks to manage hypoglycemia (i.e. juice, glucose tabs), glucometer, blood glucose test strips, alcohol wipes, and ketone test strips. Please remember to carefully monitor and replenish your child's supplies regularly to ensure safety while at school.**

We appreciate you taking the time to keep us informed so that we can best serve your child. Our goal is to provide consistent care while following current orders in conjunction with the medical team and parents. Please feel free to contact us at any time if you have any questions or concerns.

Sincerely,

Nursing Department-Student Services

**PARENT AUTHORIZATION AND RELEASE FOR THE ADMINISTRATION OF  
MEDICATION AT SCHOOL**

California Education Code Section 49423 allows the school nurse or other designated school personnel to assist students who are required to take medication during the school day, provided that appropriate authorization is given.

“Medication” includes prescription medication, over-the-counter medication, nutritional supplements and herbal remedies. Parents are responsible for providing all medication and supplies and equipment necessary to administer the medication. No medications, including over-the-counter medications, will be given without a prescription. The medication prescription must be current and medication must be supplied in the original package or original prescription bottle with pharmacy label attached (ask your pharmacist to divide the medication into two bottles completely labeled: one for home and one for school). The medication must be prescribed to the student to whom it will be administered and all medication containers must include a label with the student’s name, physician’s name, the name of the medication, and directions for use.

**I authorize and hereby request that designated school personnel assist my child in taking this prescribed medication (including prescribed over-the-counter medication, nutritional supplements and herbal remedies) as prescribed by the child’s health care provider. I agree to, and do hereby release and hold the District and its employees and contractors harmless from any and all claims, demands, causes of action, liability or loss of any type, because of or arising from acts or omissions with respect to this medication and agree to indemnify each of them with regard to any judgment or claim rendered against them arising out of this medication administration arrangement. I understand that my child may not have or take medication at school unless all requirements are met. I hereby give consent for a school nurse to communicate with my child’s health care provider and counsel school personnel as needed with regard to this medication.**

<b>Students Name (Print)</b>	<b>SEX</b>	<b>Date of Birth</b>

I have read and understand the above authorization and release. I will immediately notify the school if there is any change in medication my child is taking at school. I understand that this authorization is in effect for a maximum of one school year, and the District will require a new authorization the beginning of each school year, or if any changes in prescription occur.
