

# THE WILDCAT WEEKLY

## A Note from Dr. G – Class of 2025 Graduation Edition

Thank you to our students, my colleagues, The Board of Education, families, and friends for a truly memorable celebration on the turf this afternoon.

I asked our graduates today: “What do you plan to do with your one wild and precious life?” The Class of 2025 has already begun answering that question through their remarkable achievements and growth during their time here. They arrived at Westlake as curious young minds and leave us today as confident, accomplished individuals ready to embrace all the possibilities ahead. Their journeys have been filled with success, discovery, and transformation—and this is only the beginning.

Please join me in celebrating these extraordinary graduates and wishing them adventurous and fulfilling futures, knowing they will always carry the spirit of Mount Pleasant with them.
