

Emergency Remote Learning Plan

2025-2026

Remote learning, also referred to as distance learning, is learning that happens outside of the traditional classroom. It gives students, inclusive of multilingual learners, Special Education and Pre-School students, who are not in school for in-person education, access to online learning materials and instruction. All students are provided with a Chromebook, and touch screen devices are being provided for our Pre-K General Education & Special Education students.

NJ Governor Murphy signed A-3904 into law in April of 2020, which requires each school district to submit a proposed program for emergency remote instruction to the New Jersey Department of Education. This law provides for the continuity of instruction in the event of a public health-related district closure by permitting the District to utilize remote instruction to satisfy the 180-day requirement.

If public health and/ or safety conditions warrant changes to in-person learning, we are prepared to ensure that students and families will have what they need. We will return to remote learning if applicable governing bodies deem this necessary.

It is the goal of the District that all students and staff in PreK-12 will be issued a Chromebook. Chromebooks will be used to provide a blended learning model and allow students to have access to district digital programs. Students (K-12) and staff will be transporting their devices to school daily. All students will have the opportunity to access online lessons and complete assignments, projects, and assessments during in-person or remote learning.

Should a student or a parent have an issue with their Chromebook, they are to notify their Building Principal to make the necessary accommodations. The Principal will address the concern and replace the Chromebook.

During remote learning, it is imperative that all staff maintain communication with students (via phone calls, emails and Google Meets) to ensure they are completing assignments, are actively engaged in learning and maintain their social and emotional wellness.

Parent Notification:

Parents have been notified of this plan in official communication in multiple languages. Should we need to switch to remote learning district-wide parents will be notified via the following avenues:

- District/School website
- District robocalls
- Parent portal (e-mails)

Schedules:

School Staff and students will follow a Monday-Friday instructional week utilizing the full remote instructional day schedules below:

Staff Attendance:

- Daily logs must be completed by all Paterson Public School Staff and submitted to their Principal/Vice Principal or Direct Supervisor at the end of each remote learning day.
- If a log is not submitted, it will be documented as an absence.
- Frontline shall be used to account for daily attendance when KRONOS is unavailable for use.

Teacher/Staff Expectations:

Inclusive of Reading Specialists, Intervention Teachers, Math/ELA Coaches, Special Education Resource Teachers, Bilingual/ESL Teachers, Related Services, Child Study Teams, and School Counselors

Google Classroom:

All teachers, prior to the 1st day of school for students, will have created a Google Classroom. Students will be provided the links to the Google Classroom on the first day of school. This would provide students with access to the Google Classroom at all times. Teachers will be actively using the platform to support daily instruction.

Classrooms should be named using the following convention:

- Class name - teacher, school (ie. Mrs. Brown, School 18)
- Section - subject/grade/time (ie. ELA Gr. 4 8:20-8:50)

If you are a self-contained teacher, teaching all content areas:

- Class name - teacher, school, grade level (ie. Mrs. Brown, School 18 Kindergarten)

Homeroom will be dedicated to attendance and for students to participate in mindfulness and Social & Emotional Learning (SEL) activities provided by the teachers.

Principals/VPs/Supervisors must be invited to the Google Classroom. Teachers should designate the Administrators, as “Google Classroom Instructors” for courses. This will allow Administrators to view submissions and monitor the instruction for students.

Teachers who work with small groups (ie. Reading Specialists, Intervention, Coaches, Coordinators, Resource, Related Services, English as a Second Language (ESL), Bilingual) must have their own Google Classroom and schedule Google Meets daily for the students they provide services to. Instruction provided will be in accordance with the program type for identified students utilizing their English Proficiency Levels and/or Individual Education Plans (IEPs). Building Administrators will monitor the Google Classroom/Meets.

New material will be taught via the Google platform utilizing Google Meet, with live streaming for synchronous (real-time; live) learning, focusing on the curriculum for the course. Teachers are expected to set up Google Meets to engage students in synchronous learning for each subject daily for the duration of the scheduled period.

- To make instruction accessible, teachers must record the session, or provide an alternate recording of the instruction, and post it in Google Classroom for students to access if additional support is needed. Participants should be notified that the session is being recorded.
- Resources utilized should be those outlined in the curriculum to ensure that materials are provided in the student’s language of instruction maintaining access for all scholars.

Any educational videos posted to a teacher's Google Classroom or Google Meet must be viewed in its entirety by the teacher prior to posting to ensure that the material is grade-appropriate and educationally sound.

It is recommended/encouraged that teachers add different media, such as short videos or audio, to lecture slides or documents rather than just having text, using the district provided resources (i.e. Nearpod).

All students must have assigned Intervention(s) to address learning loss in the identified content areas. Students must work on intervention(s) daily from 1:45 pm - 3:00 pm. District digital platforms (i.e. ALEKS, Successmaker, Amira, Beable, etc.) must be utilized by students. Principals and teachers must monitor student progress and usage data. During the intervention periods, teachers should utilize student data to meet with small groups of students to provide instruction specific to student needs to remediate and accelerate learning.

Google Meets should be enabled within the Google Classroom for student access at the start of each school day.

Notifications that are created in Google Classroom should be timed to occur during the school day for students.

Ensure that the guardian email summary report is set up to send parents/guardians informing them of missing student assignments, upcoming work, and class information.

Objectives and DOL's must be posted daily in Google Classroom.

Post work/assignments for students each day by 8:20 am in the Google Classroom (unless there's an ongoing assignment). Independent assignments should not be due on the same day as assigned.

Lesson plans will be submitted as per their school building schedule to their direct administrator.

All teachers must have substitute lesson plans developed for 10 instructional days that afford students the ability to learn through a synchronous lesson delivered by a substitute. These plans should be labeled by day (i.e. Sub plans - Day 1, Sub plans - Day 2, etc.) and posted in the Google Classroom by September 15th for students to access should there be an absence.

Respond to all student/parent emails/outreach within 24 hours for assignments. All other inquiries may take up to 48 hours for a response. Inquiries sent on the weekend will be answered on the next workday. Principals will monitor parent outreach to ensure all students are engaged.

Reach out to students/parents consistently to answer any questions or concerns they have (via email, phone call, or Google Meet). Staff can use *67 to block their number or obtain a free phone number through Google Voice if uncomfortable using a personal phone number.

Maintain contact with all students and complete a daily log, provided by the building principal. Keep record of students who have not participated in the Google Meet for at least two days (See Appendix). When necessary, work with additional staff members to communicate in the home language.

If a student does something inappropriate during a Google Meet/Hangout or through a post in Google Classroom, please complete a student incident report and forward it to the Principal.

Teacher Etiquette:

- Prepare for technical difficulties; Always check that your technology is working prior to starting the session. Call or email the Help Desk (973)321-0905 or helpdesk@paterson.k12.nj.us) for assistance if needed.
- Your camera should be turned on during the entire period
- When working remotely, utilize a quiet space that has minimal distractions and be mindful of the background viewed on your screen
- Dress professionally
- Communicate effectively
- Avoid eating during the session
- Set norms at the beginning of the session (ie. ask participants to mute themselves, speak one at a time, post questions in the chat); Ask students to refrain from using their cellphones unless it is part of the lesson
- Active engagement should be displayed
- Provide time for students to ask questions, pause periodically to encourage participation

Student Attendance:

It is critical that we maintain regular contact with students and their families in order to support their social-emotional well-being and academic needs. The goal is to maintain regular contact with students to ensure participation and engagement.

Reporting Daily Attendance:

- A student will be expected to engage in synchronous lessons to receive credit for a full day of attendance.
- Attendance will be taken by the homeroom teacher, and all absences will be recorded in Infinite Campus. To ensure consistency, it is suggested that the homeroom teacher enable Meet Attendance in Google Classroom as a second form of record for verification. The school secretary will certify attendance by 10:00 am.

Reporting Course Attendance:

- In order to be considered “in attendance,” students must be present for synchronous instruction.

Additional Information Regarding Attendance:

- A student experiencing technical difficulties and/or internet interruption should notify their teacher(s) of the difficulty. Students experiencing technical difficulties and/or internet

interruption will be considered present upon completing all class assignments due on that day.

- The Student Attendance Department will provide a Google sheet to school principals to document students if no contact has been made with either the student or the family for **three** or more consecutive days.
- Schools will be expected to submit daily attendance data.
- Home Visits will be conducted by the Department of Student Attendance based on requests from the School Principal when students have not participated in online instruction for an extensive period of time (more than 3 days).
- The district will follow Policy 2360.01 (Appendix 2)

Student Expectations:

- Follow the schedule for your school. This will be posted on the school website.
- When working remotely, ensure that you are logged into Google Meet for each class on time for synchronous instruction, as attendance will be recorded.
- Participate in Google Meets established by your teachers and log off the Meet at the close of the lesson. The teacher should be the last person to log off the Meet.
- Complete and submit assignments as per the assignment's due date.
- Respond to all teacher emails within 24 hours.
- Contact your teacher if you experience technological difficulties, internet interruption, when having trouble completing an assignment or if extra support is needed.
- Continue to participate in the extended learning opportunities in which you are enrolled via the remote platform

Student Etiquette:

- Prepare for technical difficulties; check that your technology is working prior to starting the session; email your teacher with any issues.
- Behave in a respectful manner during all virtual learning activities
- Dress appropriately
- Actively engage in the sessions; refrain from using your cell phone unless directed by the teacher to utilize as part of the session
- When working remotely, utilize a quiet space in your home that has minimal distractions

- Avoid eating during the session
- Communicate effectively and respectfully at all times
- Keep your microphone on mute unless told otherwise by your teacher
- **During Google Meets your video camera must be on for the entirety of the class period.** You cannot use an Avatar in place of your initials. Only your initials or a photo of yourself can be utilized. If you are using a photo it must be age appropriate.
- Do not video record, audio record, photograph, live stream, or transmit in any other way any part of a Google Meet, including not posting on any social media platform.
- Any confidential or personally identifiable information related to students participating in a Google Meet should not be collected, discussed or shared.

Parent/Guardian Google Meet Expectations:

Parents/guardians are encouraged to assist their child through remote learning providing encouragement and supporting their children during asynchronous learning opportunities.

To maintain a positive, productive learning environment and assure confidentiality for students and teachers during remote learning, all parents/guardians are asked to observe the following privacy guidelines:

- Google Meets are designed for students to seamlessly transition to remote learning. To prevent disruptions to the learning environment, parents/guardians should not actively participate in these sessions, although parents/guardians may assist their child with technology. Especially with synchronous learning, any support needed should be coming from the teacher in the moment.
- Do not video record, audio record, photograph, live stream, or transmit in any other way any part of a Google Meeting, including not posting on any social media platform.
- Do not share Google Meet code with others. All students should have access to their appropriate Google Meets by their teacher.
- Any confidential or personally identifiable information related to students participating in a Google Meet should not be collected, discussed or shared
- Parents/guardians should not engage with students during Google Meets
- If a parent/guardian has a question, please email your child's teacher

Thank you for your support and cooperation in ensuring that remote learning is a positive, productive and enjoyable experience for all participants

Student Growth

During periods of public health related closures, students will continue to be provided assessments of their learning in a digital format, adhering to the language of instruction and IEP goals, as needed. Testing accommodations will remain in effect for all subgroups. When taking assessments, parents should refrain from helping ensure the results indicate student understanding. Assessments will be used not only as grades for student progress toward mastery, but also as a tool to support teachers with planning for instruction. Forms of assessment will include, but are not limited to, teacher created, district provided mid-year and end-of-year, midterm and final exams, intervention platform benchmark, and state required assessments.

Extended Learning Program Opportunities:

Over the course of the school year, Paterson Public Schools offers multiple opportunities for students to participate in extended learning opportunities and extracurricular activities using district and federal funds. In the event of a public health related closure, students will continue to be provided such offerings in the form of clubs, Saturday programs, Credit Recovery, and Summer programs, which will be delivered via a remote setting. The continuation of the learning opportunities during a public health related closure will ensure that students have continuity of instruction, allowing for student growth. For those in Credit Recovery, the ability to obtain credit for a course in which credits were previously not earned, will continue to be possible.

Full Service Community Schools/21st Century Community Learning Center Programs

Full Service Community Schools and 21st Century Community Learning Center Programs will continue to be offered to students and families in a remote setting. Students will continue to participate in after school programs and extended learning programs, which provide opportunities for academic intervention, homework help and tutoring, academic enrichment, and recreation. Adult education and parent workshops will continue to be provided in a remote setting for the school community. Paterson' school-based health clinic will continue to operate remotely and provide access to TeleHealth services along with behavioral health counseling for students and families. Full Service Community Schools and 21st Century Community Learning Programs will continue to work with Paterson's community partners to provide services such as food and toiletry distributions, access to social services, and remote health care.

Special Education

Paterson Public Schools will continue to meet all requirements set forth by the Individuals with Disabilities Act (IDEA). All classified students will be placed within the appropriate classroom setting based upon their Individualized Education Programs (IEPs). All components and related services outlined within the student's IEP will be provided. Documentation of IEP mandated services will be noted by each individual service provider on a weekly basis. Student progress will be noted in Infinite Campus in the form of participation grades, assignment/project completion, and test/quiz grades. Progress on the attainment of IEP goals and objectives will be noted within each IEP. All accommodations and modifications will be implemented by the classroom teacher and are noted in the curriculum as well as in teacher lesson plans. IEP meetings will be conducted via phone, on virtual platforms, or in-person with parental consent.

Multilingual Learners

Paterson Public Schools will continue to provide services for multilingual learners based on the student's composite proficiency level (CPL) and identified program type within the school of attendance. All instructional resources will be in alignment with the program type to ensure continuity of services while remote. Teachers will continue to follow the grade level curriculum in the language of instruction and differentiate by the student's language proficiency level in English, using the WIDA standards, which are delineated in the curriculum. Progress monitoring and grading procedures utilized will be aligned to the Bilingual/ESL/World Language Department guidance shared for the 2025-2026 school year to ensure the successful learning outcomes for multilingual learners.

Facilities

In the event that the district moves to Remote learning all essential Facilities, Maintenance and custodial personnel will report to work daily. Ongoing preventive maintenance and work orders activities will continue. Chief custodians will monitor all building systems. Facilities will support food distribution services at designated School locations. Capital project activities will continue as scheduled.

Athletics/ Extra Curricular Programs

All student-athletes who express an interest in participating in the Paterson Public Schools' athletic program must meet the requirements outlined in the District's athletic competition policy (Appendix 3 – 2431). Student-athletes must receive medical clearance and meet all established rules and regulations set forth by the NJSIAA.

Child Care

Various community partners throughout the city of Paterson provide childcare options for families during remote instruction. The Boys and Girls Club of Paterson and Passaic and Oasis: A Haven for Women and Children are two locations. Some of the State Mandated Preschools also provide this service.

Community Programing

The Parent University is one of the major strategies of the district's Family and Community Engagement Department's efforts to provide parents and community stakeholders with the information they need to nurture their children's success in school. In the event that the district moves to remote learning, workshops will be provided regarding the 5 categories: health and nutrition, parental development, job skills development, and advocacy. Additionally, workshops will be made available in multiple languages.

Transportation

If Paterson Public Schools is receiving remote instruction, transportation will be provided for out-of-district, vo-tech, and charter school students.

Essential Employees

A list of essential employees can be under Appendix 4.

Appendix 2- 2360.01 Distance Learning Policy

<http://www.paterson.k12.nj.us/board/Policies/2000/2360.01.pdf>

B. Student Attendance. Students are expected to review and complete assignments and to participate in live online lessons and learning activities when required. When using web-based video conferencing tools including Google Meets and Zoom to participate in synchronous instruction, students must enable their webcams and appear live on screen for no fewer than the first five minutes of each class. Teachers will utilize Infinite Campus to record daily student attendance. To be recorded as present for the day, students must log into their online homeroom class using their District-issued credentials and complete the daily Social-Emotional Learning question. To be recorded as present for each class, students must log into the online class and complete the daily assignments posted there. If a student fails to log into any particular class, the school will call the student's parents within 48 hours to inform them of the absence.

Grading of distance learning assignments and assessments of end-of-course knowledge and understanding of the subject matter shall be consistent with grading of equivalent courses in classroom settings.

Appendix 3 – 2431 Athletic Competition

<http://www.paterson.k12.nj.us/board/Policies/2000/2431.pdf>

The purpose of this Policy, programs of athletic competition include all activities relating to competitive sports contests, games, events, or sports exhibitions involving individual students or teams of students when such events occur within or between schools within this district or with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, intramural athletic programs within a school or among schools in the district, and any cheerleading program or activity in the school district.
