Participants demonstrate their academic strength by completing seven written tests, writing an essay, delivering a prepared and an impromptu speech, and participating in an interview. The exciting Super Quiz oral relay is a team event held before a live audience. Each team consists of three "A" (honor), three "B" (scholastic), and three "C or below" (varsity) students. Awards are presented to the top teams as well as the top individual students in each event.

The administration requests approval to enter into an agreement with Typing Agent, LLC, in order to prepare students for the keyboarding skills required as part of the California Common Core State Standards assessments. The web-based program, Typing Agent, will be made available to all students in the district for a period of twelve months at a cost of \$1.00 per student.

Typing Agent is an intuitive and powerful web-based unlimited access program that provides students with the skills and strategies to successfully learn how to type. The program prepares students for the Smarter Balanced Assessment Consortium (SBAC) given to students in grades 3-8 and 11. The program allows teachers to set individualized goals for students and set class targets. Student keyboarding data remains with students year after year as a method to monitor growth.

The program also offers age-appropriate learning environments that keep students engaged with keyboarding exercises and interfaces for various levels (K-2, 3-5, middle and high school). Students can login from their school or anywhere there is an internet connection to complete assigned homework and practice their keyboarding skills. Parents will also have a unique parent access portal where they can track their child's progress.

REPORTS

▪ **Students' Reports** – *(Full reports posted on the website.)*

- Firebaugh High School – by Jacqueline Godoy
- Lynwood High School – by Larissa Campa
- Vista Continuation High School – by Samantha Torres
- Lynwood Adult School – by Debra Ramirez

▪ **Superintendent's Report**

Mr. Gothold congratulated Firebaugh High School for being selected as an Outstanding High School. For this reason, Univision will be on campus filming students and the school community on November 14.

Mr. Gothold reported that based on the rankings used on the Safe & Supportive School Climate Index Report, Lynwood High School for two years in a row, has been the most improved school in the state of California. These rankings are based on surveys of students, parents, and staff. To put things in perspective, Mr. Gothold shared that LHS moved up to the 63rd percentile in Safe School Climate rankings, a remarkable improvement from being only in the 3rd percentile in 2011. Moreover, in 2011, only 38% of LHS parents felt students were safe in school. This has increased significantly with 70% of today's parents finding LHS as safe and supportive school. These surveys are done anonymously and their results are a good indication not only of how LHS is doing, but are also reflective of other LUSD schools. Mr. Gothold said this makes him proud of LUSD students, principals, teachers, staff, and parents. He thanked the entire district community for the improvement in culture and safety of our schools.

The Superintendent introduced the next presentation by sharing that five years ago the District, through its strategic plan and support of the Board of Education, made a commitment to expanding and enhancing its Career Technical Education program. In doing so, the district wanted to design programs that exposed students to potential career fields where there is a demand for skilled labor not only in today's economy, but what the Department of Labor projects over the next 10 years. Two of those pathways, Engineering and BioMed, will be featured tonight.

Dr. Yesenia Fernandez shared that the Project Lead the Way program began three years ago under Mr. Gothold's direction and the support of the Board. Dr. Fernandez introduced the teachers involved: Mr. Mungia (who started the program), Ms. Long of Hosler MS, and Ms. Arellano of Lynwood MS, Mr. Hernandez of CCMS, and Mr. Ude of Firebaugh HS.

Mr. Mungia led the presentation (PowerPoint posted on the website), which included program description, video clips of students engaged in class activities/projects, and student accomplishments. Students also presented an actual robot created in the Principles of Engineering, Introduction to Engineering Design, and Digital Electronics classes. PLTW students Hugo Vasquez, Melody Delcid, Andres Delgado, and Amy Duarte shared their experiences applying logic, reasoning, and problem-solving as they invent and innovate. They also expressed pride in their accomplishments and in meeting Certification requirements. Mr. Mungia also shared District partnership with colleges (i.e., El Camino & Compton Colleges) and other organizations (i.e., JPL, Boeing, etc). Other students also present were Diego Flores, Isreal Lemus, Juan Tovar, Carlos Henriquez, Luis Carvajal, Ashley Medina, Eduardo Lemus, Jonathan Galvez, and Abieiden Lopez.

Ms. Deena Smith, teacher for PLTW Biomedical classes, introduced students Katya Vargas and Ashley Pilar, and Ms. Bejarano from FHS, who explained the program and activities. Roberto Romero shared past and present students' accomplishments and scholarships received.

The PowerPoint presentation ended with a video clip of students thanking the administrators, the Superintendent, and the Board of Education.

Dr. Fernandez closed the presentation sharing plans of expanding this program by adding more teachers/classes. She thanked the Board, the Superintendent, Cabinet members, and all the teachers that support PLTW. Mr. Gothold shared that these high school students are already earning college credits through this program. Mr. Gothold thanked the teachers and students for a great presentation.

▪ **Board Members' Reports**

Mr. Hardie commended staff and students and said he was proud for the career pathway that was presented. He said this is an evidence of the progress the District has achieved, especially for an alumnus, like him, who didn't see these programs available during his student years. He hopes these programs continue and serve more students for years to come. Mr. Hardie gave a shout out to FHS and LHS students for engaging in mock elections. He said it is important that the youth be involved with issues in the community/city, as well as with the state and the nation. He added that it is wiser to be involved and not simply to complain. He concluded his

report asking seniors to complete their college application early, as last minute completion and edits can be stressful. He also encouraged students to consider applying to all types of colleges/universities in and outside of California.

Ms. Renteria praised Mr. Mungia for the work that he's doing. As a Math and Science teacher, Ms. Renteria expressed admiration for the presentation given by Mr. Mungia earlier. She also had the pleasure of observing him teach and applauded him for his competence which makes her aspire to follow his example. She praised the District's collaboration and partnership with PLTW. She said that this is timely preparation to replace half the number of current engineers who are bound for retirement in the next 10 years. She echoed Mr. Hardie's sentiments for not having these programs in the past but she's proud of this current work as an evidence of giving LUSD students the best.

She applauded the students and was impressed by their presentation. She said she can see the future leaders coming from Lynwood. This also made her proud that her brother, who is an aspiring engineering, attends Lynwood High School.

Mr. Morales thanked the teachers and students for the extra time and effort they put for this presentation. He said these career pathways are well-founded opportunities that students should take advantage of. He resonated what his colleagues said and added that the Board strives to do amazing things for students and offer programs that what were once not available.

Ms. Gonzalez also had the opportunity to observe Mr. Mungia's work and saw his passion evident in the way he works with the students. She commented how proud she was of these programs and encouraged everyone involved to continue the good work that they're doing.

Ms. Gonzalez attended the recent COC Meeting for Measure K. She reported observing how the committee closely examines what the Board is doing in relation to Measure K funds and projects. She encouraged the community to attend these meetings (the next scheduled one is on January 2015).

No action or discussion is permitted on any item not included on the posted agenda per GC§ 54954.2 (a).

No action may be taken and no discussion held on items raised by the public except as provided in GC§54954.2 (b).

Mr. Andres Ramos agreed with Ms. Renteria and said that the teachers and students were impressive and inspiring (referring to the PLTW presentation).

Ms. Ramos is a Board member for the Compton Community College District, representing the City of Lynwood. He referenced and distributed to the audience the fact sheet on "El Camino College & Measure C", which will be on the ballot next week for Lynwood voters. He shared that the facilities at Compton College, built over 60 years ago, are deteriorating and outdated. "YES on C" intends to repair sewer & gas lines, leaky roofs, bathrooms, repair electrical systems, and replace outdated plumbing & electrical wirings. He explained that as the cost of California universities rise, more local students and families rely on the Compton Center for affordable education and job training. This measure will also repair and upgrade the College's classrooms and buildings to ensure students have opportunities to earn college credits, certificates, and job skills at a reasonable price. A resolution to place a \$100M facility bond measure on next week's ballot was approved by a State Special Trustee during the July 15th Compton Board of Trustees Meeting. Measure C will cost property owners \$25/year per \$100K assessed, not market, property value. Measure C projects will include construction of four new buildings: 2 instructional buildings, a student services building, and a physical education complex. It will also include renovation of the buildings for vocational/technology, math/science, MIS, and copy center. An independent citizens oversight committee will safeguard all funds by requiring annual financial audits ensuring monies are spent as authorized by voters. No bond funds will be spent on administration pensions or salaries. No bond funds shall be issued until the State Special Trustee has established project priorities.
