

Health & Social Care Summer Project

NHS Nightingale Hospitals

Project Task:

Work through the powerpoint activities on the NHS Nightingale Hospital. You can present your work using either of the following methods:

- Display board
- Video presentation
- Powerpoint presentation
- Written essay
- Make a flowchart or timeline
- Make a documentary
- Collage
- Newspaper article
- Make a TV news segment

Hand in date: September

Looking forward to seeing
your work in September!

Objectives

- ✓ To explore different types of care settings
- ✓ To understand the the function of each equipment used to treat respiratory viruses
- ✓ Role and responsibilities of Health and Social Care professionals
- ✓ How Multi-agency and Multi-Disciplinary teams work together to provide care
- ✓ The aims of National Governing Bodies that register healthcare professionals

RESEARCH THE NEW NIGHTINGALE HOSPITALS

- How many are there?
- Where are they located?
- How many beds does each one have?
- What is the difference between intensive care and a normal ward?

Challenge

- How is the development of these hospitals going to impact the spread and control of the coronavirus?

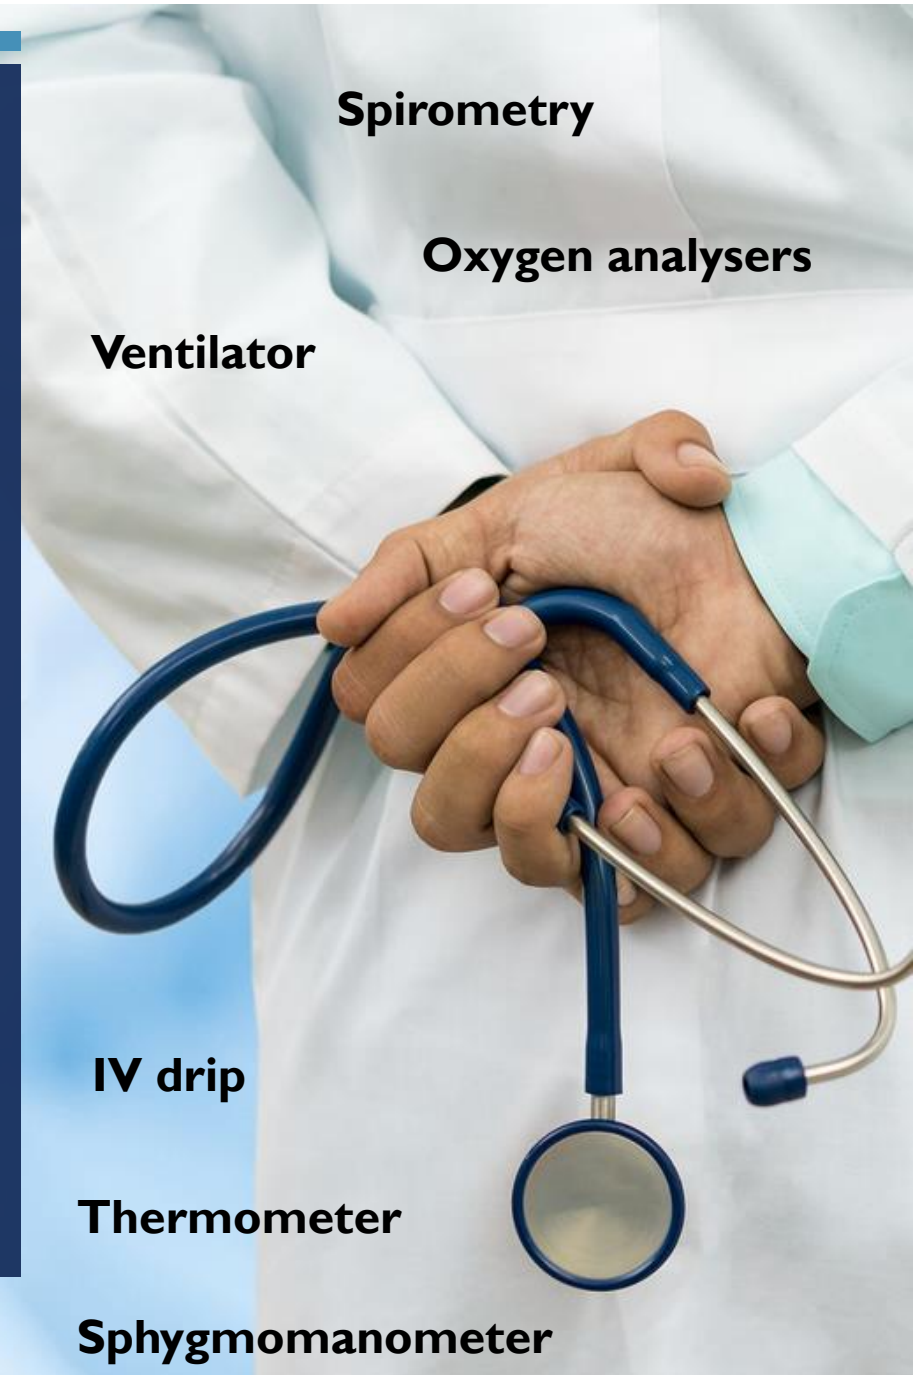

NIGHTINGALE HOSPITAL LAYOUT

Task: Research the layout for one of the Nightingale Hospitals and explain the rationale for the configuration of each department. Use diagrams and pictures to aid your answers.

MEDICAL EQUIPMENT USED FOR TREATMENT AT NIGHTINGALE

- Identify the piece of equipment is and what they are used for.
- Describe how they are used.
- Discuss the importance of this piece of equipment in treating coronavirus.
- How much do England have of each equipment?

PPE (PERSONAL PROTECTION EQUIPMENT)

Answer the following question:

- What is PPE?
- What elements make up a doctors PPE?
- Why is it needed?
- How does PPE effect the spread of the virus?

Task:

Design your own PPE for Nightingale Hospital. You must take into account the type and weight of the fabric to ensure it is suitable for performing medical tasks i.e nothing loose that could get caught in equipment.

NATIONAL GOVERNING BODY PROTECTING PROFESSIONALS THROUGH THE LAW

Task: Below are 3 National Governing Body organisations that provide accreditation for health and social care professionals. Research the aims of each organisation and which professionals they register.

1. General Medical Council (GMC)

General
Medical
Council

2. Nursing and Midwifery Council (NMC)

3. Health and Care Professional Council (HCPC)

Research the definitions for the following key terms:

Multi-disciplinary teams-
Multi-agency teams-

COMPARISON OF PROFESSIONALS TREATING COVID 19 BETWEEN DEVELOPED AND DEVELOPING COUNTRIES

Select 3 professionals e.g. Healthcare workers, cleaners, security who worked at Nightingale Hospitals.

- Describe their role and their day to day responsibilities during the Pandemic
- Compare the difference in the way they carry out their responsibilities in both care settings

Excel, used as hospital in England

Mobolaji Johnson Arena, used as hospital in Nigeria

LEARNING CHECK: HAVE YOU INCLUDED EVERYTHING IN YOUR PROJECT?

- ✓ To explore different types of care settings
- ✓ To understand the the function of each equipment used to treat respiratory viruses
- ✓ Role and responsibilities of Health and Social Care professionals
- ✓ How Multi-agency and Multi-Disciplinary teams work together to provide care
- ✓ The aims of National Governing Bodies that register healthcare professionals

Hand in date: September

See you then!
