The students have an average GPA of approximately: 3.60.

We have 11 G/Ts in different areas, which greatly helps the group to constantly grow in different areas and mutually enrich each other in different cultural fields.

Tools and strategies for the evolution and growth of the multicultural group "SOMOS PANTERAS": group cohesion, identity, leadership, and academic growth.

SOMOS PANTERAS' MISSION AND VISION

Edythe J. Hayes Middle School

The mission of Ms. Morera's multicultural group at EJH is to ensure that all students feel welcome and included upon joining the club. We create a warm and welcoming environment from day one. We greet each student personally and foster a culture where every voice is valued, regardless of their cultural background, English proficiency, or academic performance.

The vision of Ms. Morera's multicultural group for success in our group: We encourage communication in both Spanish and English so that no one feels excluded. Returning members actively participate in helping new students feel included by introducing them to other students and explaining how the club works.

Club Engagement:

We offer a variety of activities that build a strong sense of community and belonging, including:

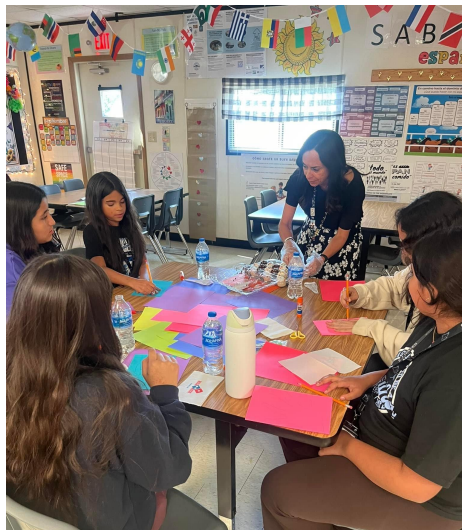

Hispanic cooking workshops where students prepare traditional recipes from various Spanish-speaking countries.

Arts and crafts activities such as painting, crocheting, Cricut design, and custom t-shirt printing with cultural or motivational messages.

Team-building games and group activities that promote fun and collaboration.

Leadership meetings where students contribute ideas to improve the club and support each other.

We encourage participation by extending personal invitations, recognizing student involvement, and giving them a voice in planning. Reminders, small incentives, and celebrations of accomplishments also help maintain engagement.

- *I wanted to highlight the positive impact the group has had on the students. Initially, it was created with the belief that only Hispanics would attend, but that wasn't the case. We have created a multicultural group working on their experiences and personal and academic growth.*
- *I would like to thank everyone present for these minutes, and Dr. Touchan for his encouragement and support throughout this exciting project.*
