<b>Phone Number:</b>
<b>Fax Number:</b>
<b>Your child's vision was screened on:</b>

Vision screening is routinely conducted in schools as required by State law. This screening is performed to determine if your child has a vision problem that could interfere with learning.

Vision screenings do not take the place of a complete eye exam by an optometrist or ophthalmologist.

Your child **DID NOT Pass** the vision screening. It is important that you follow up and schedule your child for a complete eye exam.

## Steps to follow:

1. Schedule an eye exam with an optometrist or ophthalmologist in your area.
2. Take the attached **EYE SPECIALIST REPORT form** with you to the appointment.
3. Have the eye specialist complete the form
4. Return the completed form to school so the recommendations can be followed at school to benefit your child's learning.

## Contact your School Nurse if you need further help with:

- Locating an eye specialist
- Paying for the examination
- Paying for glasses
- Have questions about your child's vision screening

If your child is already receiving eye care from a professional, please have the **Eye Specialist Report form** completed by the specialist and return it to the school.

## Find an Eye Specialist
