We Believe In E!

ATTENDANCE IS THE KEY

2023-2024 School Attendance End of Year Report
Departmental Goal Achievement and Attendance Initiatives

Submitted by Melissa Burke, School Social Worker/Attendance Court Liaison

The School Social Services Team continued to focus on decreasing chronic absenteeism by assisting students, families, and school staff with alleviating barriers to school attendance. Chronic absenteeism is defined as missing at least 10% of school days in a year for any reason, excused or unexcused. At the end of the 2023-2024 school year, Volusia County Schools district's rate was at 34.2% for chronic absenteeism. According to the Attendance Works webpage, prior to the pandemic, 8 million students were affected by chronic absence. Today chronic absence has more than doubled. Reducing absenteeism is an essential, but often overlooked, strategy for responding strategically to the academic and social-emotional loss experienced by millions of students. Effective strategies to improve attendance can benefit the entire community. chronic absence can be significantly reduced when schools, families and community partners work together to monitor data, nurture a culture of engagement, promote regular attendance and routines, and address hurdles that keep children from getting to school every day, such as lack of access to food, clothing and health care; unhealthy environmental conditions, unreliable transportation, housing instability or the lack of safe paths to school.

School Social Workers promoted attendance and engagement initiatives, and provided support to schools, students, and their families to improve attendance. Our collaboration with Stewart Marchman Act-CINS/FINS Program, State Attorney's Office, and Volusia County Teen Court Program continued in assisting us with truancy by providing services to our students and parents.

The Superintendent's Attendance Initiative funded by Advent Health continued this school year. The following schools were recognized for the highest rates in various categories:

- Excellence in Attendance Award recognizes the schools with the highest attendance rate at the elementary, middle, high school, and alternative levels at the end of each semester. Winners for first semester of the 2023-2024 SY were: Sweetwater Elementary at 95.32%, Creekside Middle at 93.7%, Deland High at 92.37%, and Highbanks Elementary Learning Center- at 824.47%. Winners for the second semester of the 2023-2024 SY were: Sweetwater Elementary at 94.05%, Creekside Middle at 92.28%, Deland High at 91.45%, and Riverview Elementary Learning Center- at 82.46%.
- The Superintendent's Attendance Challenge Award featured the top schools at each level achieving the highest reduction in chronic absenteeism during the third nine-weeks. The percentage of improvement was determined by the difference between the school's chronic absenteeism rate at the end of the first semester of the 2023-2024 school year and the rate of chronic absenteeism at the end of the third 9 weeks. The winners were Elementary: Edith I. Starke Elementary-1st place with a reduction of 4.66%, Chisholm Elementary-2nd place with a reduction of 2.24%, and Citrus Grove Elementary- 3rd place with a reduction of 2.10%; and High: Spruce Creek High-1st place with a reduction of 0.26%. At the high school level, there were no 2nd and 3rd place winners. For Alternative, Highbanks Secondary Learning Center was 1st place with a reduction of 20.2% and PACE Center for Girls for 2nd place with a reduction of 1.5%. There was no 3rd place winner.
- The James T. "Tom" Russell's Great Strides in Attendance Award honors the schools who had the highest rate of reduction of chronic absenteeism for the 2023-2024 school year at the elementary, middle, and high school levels. Each winning schools' chronic absenteeism rate was compared from the end of last school year (2022-2023) to the end of the current school year (2023-2024). The James T. "Tom" Russell's Great Strides in Attendance Award Winners were: Edgewater Public School with a reduction of 5.6%, and Deland High with a reduction of 5.1%. There were no middle schools who met the criteria for this award this year.
- Shirley H. Lee Community Support for School Attendance Award: This award is given to an individual who has exhibited an exemplary personal commitment to promoting regular school attendance. The winner was Tamara Hopkins, Retired Principal, at Sweetwater Elementary.

The 2023-2024 School Social Work Services Attendance Goals:

1. To reduce the chronic absenteeism rate at all schools. Social Workers disaggregated chronic absenteeism attendance data and shared this information with their schools. Social Workers promoted attendance and engagement initiatives, and provided support to schools, students, and their families to improve attendance. End of year data showed that 21,302 students were chronically absent (34.2%) district wide. The district rate for homeless students who were chronically absent was 5.2% which represents 1,110 students. The district rate for ESE students who were chronically absent was 26.5% which represents 5,655 students.

2. To decrease the percentage of students who are habitually truant with emphasis on our homeless population (PETALS). Social Workers worked towards this goal by monitoring school attendance, disaggregating attendance data, promoting attendance and engagement initiatives, and providing support to schools, students, and their families to improve attendance. School Social Workers assisted school-based staff in identifying all truant students (students with 15 or more unexcused absences within a 90 calendar period) at each of their assigned schools by providing monthly habitual truancy reports and inquiring about interventions for those students on the list. The overall rate of students who were habitually truant for the 2023-2024 SY was 4.7% which represents 2,945 students of the total population of truant students. The overall rate of homeless students who were habitually truant was 10.0% which represents 294 students of the total population of truant students. The overall rate of ESE students who were habitually truant was 26.0% which represents 765 students of the total population of truant students.

School Social Workers provided support to schools, students, and their families through PST meetings, phone calls, home visits, and letters with information about compulsory school attendance with follow-up of 954 referrals regarding attendance which included terminated home education students, Learnfare students, Hospital Homebound/Home Instruction/Off Campus Instruction programs. School Social Workers assisted Student Accounting with following up with parents of 452 students who had W02 withdrawal codes and 239 students who had W24 withdrawal codes. When more assistance was needed, School Social Workers referred parents and students to community stakeholders for support in improving school attendance. School Social Workers submitted 8 Teen Court referrals, 30 CINS/FINS referrals, and 129 ASAP referrals. There were 25 parents who were referred to adult court through the State Attorney's Office for violation of the compulsory school attendance law based on 25 students' patterns of non-attendance.

School Social Workers were supportive in assisting the district in resolving DNE withdrawal codes again this school year in order to ensure that the district's count was accurate for the submission to FLDOE for annual withdrawal reporting (i.e. Survey 2-5). On Day 11 (8/28/23), there were 959 DNE students. All DNE codes were resolved by the end of the school year.

Two School Social Workers assigned to the alternative education schools provided transition services for those students who were placed at Highbanks Learning Center and Riverview Learning Center by the District Student Placement Committee or their respective (ESE) IEP teams. As of 6/5/24, 159 students were placed at Highbanks Learning Center and at Riverview Learning Center, 197 students were placed at these alternative schools.

School Social Workers focused on empowering students to achieve educational goals by emphasizing the correlation between regular school attendance and academic achievement. They also engaged with parents and families in problem-solving the barriers to attendance and provided them with community resources to support them with improving their students' school attendance.

In October 2015, the Obama Administration launched ***Every Student, Every Day: A National Initiative to Address and Eliminate Chronic Absenteeism*** with a goal to decrease chronic absenteeism by at least 10 percent each school year. Research shows that missing at least 10 percent of school days in a year for any reason is a primary cause of low academic achievement and a powerful predictor that students will eventually drop out of school.

*Note: Calculations for Online Learning attendance data began in the 2013-2014 school year. For the 2016-2017 and 2017-2018 school years, Online Learning only included full-time Volusia Virtual School. Beginning the 2018-2019 school year, Online Learning attendance reporting was not available in the Student Information System.

**Note: Beginning the 2019-2020 school year, a new Student Information System (FOCUS) was implemented. The habitual truancy report was not developed until mid-year and only includes students who are compulsory age whereas before included all students who were habitually truant regardless of age. The chronic absenteeism report was not developed until the summer of 2020. All Florida schools were closed due to COVID-19 on 3/23/20 and no attendance was taken during Phase 1 (3/30/20-4/15/20) of Distance Learning in Volusia County Schools. Attendance was captured during Phase 2 of Distance Learning in Volusia County Schools from 4/16/20-5/29/20.Absences were defined as no evidence of engagement in a digital platform and/or no response to contact attempts within a week. Through the end of the third quarter (3/12/20), the district wide truancy rate was 2.3% and the district wide chronic absenteeism rate was 21.2%.

***Note: In the 2020-2021 school year, all Florida schools reopened despite the COVID-19 pandemic. The rates were considerably higher because of the multiple positive cases and quarantines which required students to be absent at least 10 days at one time, difficulty with technology for students who were enrolled in one of two online learning options, and parents' fears of the pandemic.
