

THE BOLLES SCHOOL

With the theme of "All Things Possible," campers at The Bolles School have no shortage of ways to have fun this summer.

The Bolles School offers all-day, morning and afternoon camps for children from pre-school through 12th grade on all three campuses (San Jose/Whitehurst, Bartram and Ponte Vedra Beach), combining a specialty camp in the morning with adventure camp or day camp in the afternoon. Extended-day options are also available. This year's theme is "All Things Possible." River access allows campers to enjoy tubing, boating, marine science study and water sports. State-of-the-art facilities make the baseball, tennis and swimming programs popular. The new robotics and computer labs take technology and computer activities to a new level.
