Superintendent's Report - July 1, 2025

It has been an honor to spend the last two months getting to know so many wonderful people in the Rye Neck School District and Rye Neck Community. From my initial meetings with the Board of Education, to the incredible administration team, staff members, parents, community members and of course all the students, it's grown my enthusiasm exponentially to now be a part of such a great and supportive academic environment.

I want to personally thank Dr. Eric Lutinski, for his incredible support and encouragement during the transition. There is a lot of variance in how smoothly a superintendent transition can occur, but Dr. Lutinski could not have been any more supportive or helpful during this time. I wish him the best in his new role, and look forward to seeing him often during our monthly county meetings.

I enjoyed attending a multitude of events during this transitional time, continuing to be amazed at the success and accomplishments of our students and staff. There were elite musical concerts, incredible artistic displays, creative performances, and wonderful athletic triumphs. This was all a prelude to the spectacular graduation ceremonies at Daniel Warren, F.E. Bellows, the Middle School and finally, the high school graduation.

I am greatly looking forward to today's Board of Education retreat, where we will be welcoming in two new Board members and discussing our goals and vision for the upcoming school year. I have completed my Year 1 Entry Plan, which I will review with the Board today and present to the community during the August meeting.

I encourage our students and staff to find time to relax and recharge their emotional batteries as we prepare to make the 2025-2026 school year even better. Thank you to the entire Rye Neck community, and my family and I are already proudly wearing our Rye Neck School District swag. Thank you.
