**Dr. David F. Lewis
Superintendent of Education**

Members of the Board of Education and the Citizens of Muscogee County

After thorough planning and collaboration with stakeholders across our organization, we are pleased to present the Superintendent's Recommended General Fund Budget for Fiscal Year 2026. This budget supports our mission of becoming a beacon of educational excellence where all students are known, valued, and inspired. The proposed budget reflects our commitment to academic achievement, financial responsibility, and continuous improvement—aligning resources with strategic priorities to ensure all students can succeed.

Purpose and Vision

This document represents the collective efforts of district leadership, school staff, and community partners to allocate financial resources in support of high standards of teaching and learning. It reflects initiatives proven to enhance student outcomes and aligns with our belief that every student can learn and thrive.

The FY 2026 budget was developed in accordance with parameters established by the Board and shaped by state and local economic conditions. These factors guided our approach to balancing fiscal responsibility with innovation in educational programming.

Fund Balance

At the end of FY 2025, the District anticipates a fund balance of \$95 million, reflecting an increase of \$1.8 million from FY 2024. For FY 2026, the District plans to utilize \$25 million of this balance, leaving an estimated ending fund balance of \$70.0 million. While this reduces the overall fund balance, the District is making intentional and necessary investments in compensation, rising healthcare costs, and essential staffing as federal support declines.

General Fund Revenues

The District projects total General Fund Revenues of \$392.7 million, an increase of \$11.6 million or 3.04% over the FY 2025 budget. This increase is primarily due to additional State QBE funding and growth in Local Property Tax Revenue.

- **State Revenues** (representing 61.56% of total revenues) are projected to rise by \$5.6 million (2.4%) over FY 2025. This increase is attributed to growth in QBE allotments and other state-level funding enhancements.
 - **Local Property Tax Revenue**, including the Title Ad Valorem Tax (TAVT) and intangible tax, comprises 36.62% of total revenues. It is projected at \$143.8 million, an increase of \$4.4 million over FY 2025.
 - The preliminary CY 2025 tax digest indicates a 2.09% year-over-year increase.
 - The Board is set to adopt a final millage rate of 23.075 on June 23, 2025, consistent with the prior year.
-

General Fund Expenditures/Transfer Out

The proposed FY 2026 General Fund Budget totals approximately \$417.8 million, which includes \$408.7 million in expenditures and \$9 million in transfers to other funds. This represents an increase of \$27.9 million (7.1%) compared to FY 2025.

Key Expenditure Highlights:

- **Salary Increases**
 - A 3% salary increase for eligible staff, in addition to step increases based on scale and years of service.

Key Expenditure Highlights: (continued)

- **Staffing Adjustments (Net Increase of 33 Positions)**

- **Outsourcing and In-House Staffing Changes:**

- Outsourced 12 Speech Language Pathologist positions and 27 custodial roles.
 - Shifted 10 Computer Technology Specialist positions from contracted services to district staff.

- **New and Reallocated Positions:**

- Added 21 school clerks—one at each middle and high school—to strengthen front office operations and support school security protocols.
 - Added 4 assistant principals, ensuring every elementary school has dedicated leadership.
 - Adjusting police officer allocation to 30 due to anticipated unfilled vacancies.
 - Added 14 net new teaching positions to meet instructional needs and reduce class sizes.
 - Transitioned 31 support staff positions from federal grant funding to the General Fund, in anticipation of reduced federal funding.

- **Benefits**

- Employer contributions to the State Health Benefit Plan:

- Certificated staff: increase from \$1,760 to \$1,885 per member/month (+7.1%)
 - Non-certificated staff: increase from \$1,580 to \$1,885 per member/month (+19.3%)

- Teacher Retirement System rate increase from 20.78% to 21.91%

- **Operational Expenditures:**

- The FY 2026 budget allocates \$61.8 million for operational expenditures, an increase of \$2.7 million compared to the prior year. This growth is driven by several factors, including the financial impact of outsourcing decisions outlined in the salary section, rising costs for utilities and insurance, and a shift in instructional materials—from traditional textbooks to more technology and hands-on resources and manipulatives.

- **Transfers Out**

- Transfers to other funds to support community learning resources and capital improvements that benefit students and families across the district total \$9,095,137, including:

- \$8,595,137 to Public Libraries (an increase of \$327,669 FY 2025)
 - \$500,000 to the Capital Project Fund (an increase of \$250,000 over FY 2025)

The Board has the responsibility to maintain a reasonable uniform system of public schools providing quality education for all young people of Muscogee County. - \$34 million increase in Charter School funding

Muscogee County School District FY 2026 Budget Parameters

In the building of the District's FY 2026 General Fund Budget, the state's financial landscape serves as a backdrop in defining the District's budget parameters. Budget parameters include those considerations that will be forefront in the budget development process. Below for the Board's review and consideration are the FY 2026 Budget Parameters:

- Continued effort to provide the programs needed as we strive to become a premier district; which includes differentiated resources for challenged schools
- Continuation of Zero-Based Budgeting Model
- No increase in mill levy
- Include 1.5 mill transfer-out for Chattahoochee Valley Regional Library System
- Include a \$1,000,000 transfer to Capital Project to facilitate needed improvements for non-ESPLOST projects (District buildings including MCPEC, transportation and plant services)
- Allocate funding for:
 - Salary increases, as funding allows
 - Step increases within the current State of Georgia teacher salary schedule and the District's salary scales for non-certified personnel
 - Increases to cost of the employer portion of the health insurance as approved in the State FY 2026 budget (\$1,760 certified rate and \$1,560 non-certified rate in FY 2025 to \$1,885 for FY 2026 for an annual rate per member of \$22,620
 - Increases to employer contribution rate for the Teacher Retirement System (20.78% in FY 2025 to 21.91% in FY 2026)
 - Additional security-related positions
- Given the uncertainty of federal funding guidelines, adjustments to programs and allocations may be necessary

Real and Personal Property increases by \$97.7 million, while motor vehicle decreased by \$5 million. The decrease in motor vehicle is mainly due to the Title Ad Valorem Tax no longer being reported as part of the annual tax digest, effective July 1, 2019. The District will receive these funds as a separate allocation each month. The Mobile Home increases \$4.8 million due to a re-evaluation of the property as well as new homes replacing older homes.

Exemption amounts are updated annually.

Components of QBE Funding

Descriptions

State QBE Earnings (Quality Basic Education) Formula Earnings continue to be the primary source of state revenue for the District, totaling \$239,289,857, which represents 61.56% of the projected Total General Fund revenues for FY 2026. This increase over the prior year is primarily due to higher allocations in health insurance, training and experience, equalization, and adjustments within the QBE programs. The Initial Earnings Sheet for FY 2026, which outlines the Official State QBE Formula Earnings, is included in the Appendix.

The **Local Five Mill Share** is the amount of money required for a local school district to participate in the state funding of public education. For FY 2026, according to the *preliminary* property tax digest received May 2025, it is projected that the District must levy 5.23 mills to meet this requirement. This is 0.23 mills above the 5 mill share requirement. The District is projected to receive the final property tax digest for calendar year 2025 in late July 2025. The District's required contribution has increased \$510,074 over the FY 2025 due to the increase in the total QBE earnings.

The **Austerity Reduction** is a reduction to the State QBE Formula Earnings. It is the inability of the State to fund their share of the QBE programs; increasing the amount that local boards of education have to share in the funding of public education. This line item is used by the State to withhold earned State QBE Formula Earnings from school districts and is identified as "Amended Formula Adjustment" on the District's annual Earnings Sheet. It is also a means to pass the revenue shortfalls realized by the State down to school districts. During FY 2019 - FY 2020, the State was able to fully fund its share of the QBE funding formula for the first time since the onset of austerity reductions in 2003. Due to the economic impact of the COVID-19 Pandemic, the State had to reinstate this formula adjustment for FY 2021 and FY 2022. However, in both years the State reduced the amount with the mid-term adjustment. The amount was reduced by 60% to \$6,739,835 for FY 2021 and \$0 in FY 2022. The austerity reduction was completely eliminated for FY 2023 - FY 2026.

The Educational Equalization Grant was established to help address disparities in property tax wealth among taxing jurisdictions statewide. School districts with property tax wealth at or below the 75% threshold are eligible for additional state funding. This funding is allocated in proportion to the number of mills they must levy beyond 5 mills to contribute to public education funding. As a result, the district's ranking remained largely unchanged, leading to a modest increase of \$708,137 compared to the previous year.

As reflected above, the District has consistently dedicated over 64% of the General Fund expenditures to Direct Instruction (Function 1000). Direct Instruction is defined as those activities dealing directly with the interaction between teachers and students. This includes those teaching activities provided for students in a classroom setting, as well as, teaching activities provided in a home, or hospital setting. Further, it includes those settings involving co-curricular activities. Other approved mediums such as television, radio, telephone and correspondence are also defined as instructional activities. Expenditures associated with activities of aides or other classroom assistants, such as clerks who assist in the instructional process, are coded to this function as well. For expenditure control purposes, the expenditures of counselors and technology specialists can be coded to Function 1000.

Muscogee County School District Student Enrollment

The actual enrollments for school years as early as FY 2016 through FY 2025 are reflected on the following pages for all schools. The actual enrollment represents the enrollment as of the October Full-Time Equivalent (FTE) student enrollment count date. It is considered the official enrollment count for school districts. The FTE student enrollment count is taken each October on the first Tuesday of the month. It represents those students that were enrolled in one of the nineteen direct instructional programs defined by the state for at least one of the prior ten school days before the FTE count date.

The nineteen direct instructional programs are as follows:

The Quality Basic Education (QBE) Act, which is the current mechanism used by the State of Georgia to provide funding for public education, requires school districts to report student enrollment in terms of FTE students. A funding weight or value is assigned to each instructional program. This value is the cost of providing the state funded courses. The base funding received for each FTE student is defined each year by the Georgia General Assembly. The number of students and the instructional programs to which the students are enrolled determine the total funding earned. Adherence to the maximum class size requirements also plays an important role in this process.

Muscogee County School District Student Enrollment

Local boards of education that are found to be out of compliance shall be subject to a complete loss of funding for the class or program that is not in compliance, unless there has been a flexibility waiver granted by the State. Since State QBE funding accounts for over 60% of the District's total revenues, the accuracy of the FTE enrollment count is critical to the district's continued solvency.

As reflected in the chart below, since FY 2016, the District's average student enrollment for grades K-12 is 29,751. The actual student enrollment for the periods referenced for grades K-12 can be found on the following page.

**Muscogee County School District
Student Enrollment**

The District’s Student Enrollment trends for FY 2016 through FY 2025, as plotted on the chart on the preceding page are reflected below. In comparison to the prior fiscal year, for FY 2024 the District realized a decrease in enrollment for grades K-12 of 321 students or 1.11 % below FY 2024. This decreased enrollment resulted in a projected decrease in State QBE Earnings for FY 2025.

As reflected, this is the sixth year in a row the District has realized a decline in student enrollment. This is primarily attributed to the transient nature of the student population.

As reflected in the chart above, for eight of the reported ten fiscal years, the District has realized a decline in student enrollment for grades pre-k through 12 with an overall 10 year decline of 2,537 students. This year-over-year decline for FY 2025 was 336 students or a reduction of 1.1%. The continued decline in student enrollment is attributed to the transient nature of the student population.

A discussion regarding the enrollment trends can be found on the preceding page. Overall, the District continues to make a concerted effort to ensure that the enrollments are properly performed from year to year, capturing due funding for student growth gains.

As reflected above, the District has experienced an overall increase in both the State Health Benefit Plan (SHBP) and the Teacher Retirement System (TRS) employer cost. The actual cost incurred is driven by salary and wage increase, increase in positions, as well as, any mandated employer cost increases. For the most part, school districts have experienced a continued increase in the employer cost for each of these fringe benefits, resulting in increased cost of operations.

For FY 2026, the District is projected to incur SHBP employer cost of \$57 million, which represents an increase of \$8.8 million or 18.02% above FY 2025. The SHBP employer cost increases from FY 2021 through FY 2026 resulted in \$28.5 million in additional expenditures for the District. The average increase for this period was 12.57%.

Likewise for the TRS employer cost, for FY 2026, the District is projected to incur total expenditures of \$44.9 million, which is an increase of \$4.4 million or 10.92% over FY 2025, which is a result of increases related to raises given to employees plus an employer rate increase. Since FY 2021, the District has incurred \$10.6 million in additional TRS employer cost. The average increase for the same period was 4.97%.

The annual Transfer-Out to the Chattahoochee Valley Libraries (CVL) was approved by the Board as part of the FY 2026 Budget Parameters. The transfer amount is directly tied to the Net Maintenance & Operations (M&O) tax digest; as the digest grows, so does the dollar value of the transfer.

Following a significant funding shortfall in FY 2021, the District temporarily adjusted the transfer to an amount equivalent to approximately 1.3 mills. Since then, the Board has consistently approved transfers based on an agreed-upon rate of 1.5 mills. The resulting year-over-year increases in the transfer amount are due to the growth in the total digest, not a change in the millage rate that is being contributed to the Library. This funding model ensures stable and sustainable support for library services while aligning with changes in the local tax base.

Each year, a modest transfer to the Capital Projects Fund is included in the budget to support projects not eligible for funding through the Education Special Local Option Sales Tax (E-SPLOST). For the current fiscal year, this transfer has increased by \$250,000 to address additional project needs and priorities that fall outside the scope of E-SPLOST funding.

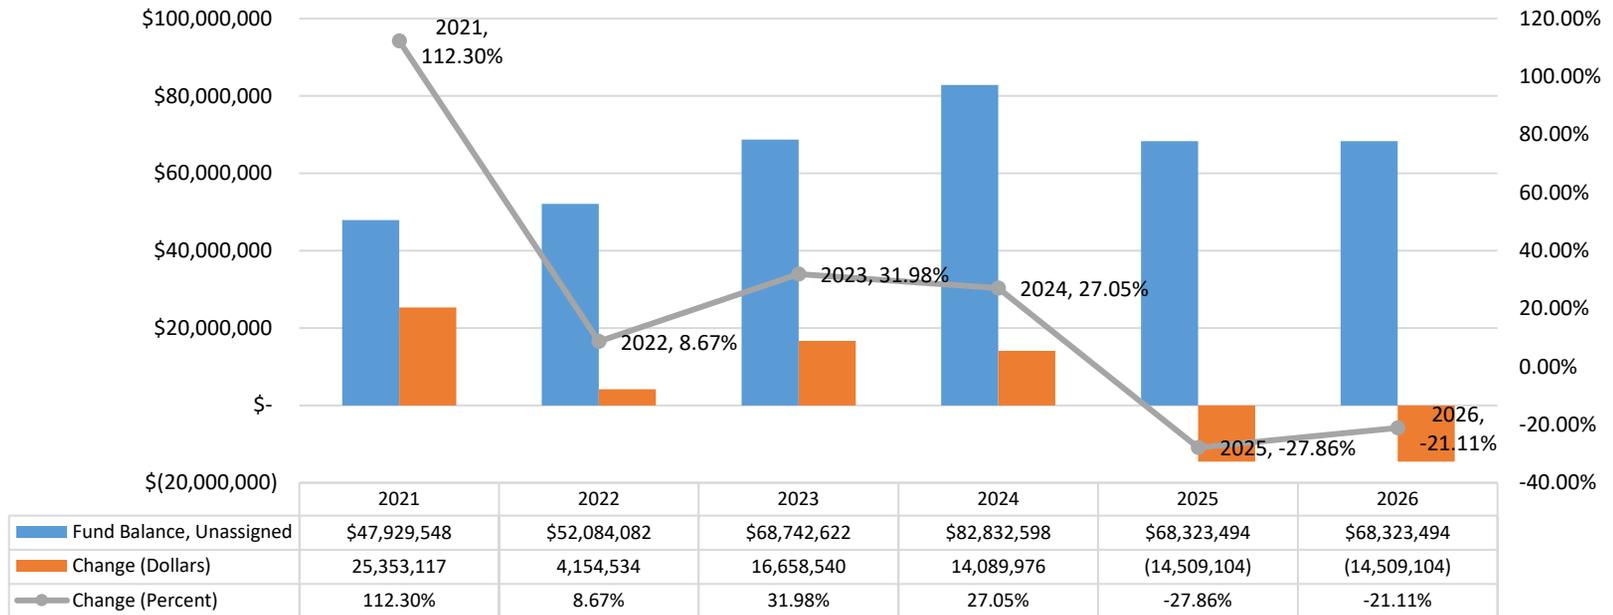

FUND BALANCE

Muscogee County School District Fund Balance - General Fund

Unassigned or unreserved fund balance represents that portion of the Fund Balance of Total General Fund that is not restricted, committed, or set aside for a specific purpose and occurs when the revenues and other financing sources exceeds expenditures and other financing uses. The unassigned fund balance also includes the accumulation of revenues in excess of expenditures for prior fiscal years. The primary purpose of the Unassigned Fund Balance is to provide for the maintenance and operations of the District during the summer months while awaiting receipt of the new property tax revenues associated with the current year's assessments. In Muscogee County, property taxes are generally levied in October and payable in two installments with the total taxes due sixty days after the initial billing, which is on December 1st each year.

The recommended General Fund Unassigned Fund Balance is predicated on the anticipated local property tax receipts. It is recommended that school districts maintain a General Fund Unassigned Fund Balance of 28% to 30% of anticipated local property tax receipts and 60 days of operational expenditures. Since FY 2021, the District has met these thresholds and anticipates to continue to meet them.

The chart below depicts the Unassigned Fund Balance trends for FY 2021 - 2024, with FY 2025 and FY 2026 reflecting the current projections
