

K-4th Grade Science FAQ

Miss Hirshouer's Classroom Rules

1. Be safe, Be responsible, Be respectful in all areas of the classroom
2. Always follow procedures and try your best! The more effort put into assignments/ experiments the higher your grade will be. Speak up if you need help, I do not know how to help you unless you tell me.

Daily Requirements

1. Come to class prepared to learn, show active listening during lessons and classroom experiment procedures and be safe when following them.
2. Be respectful to classroom items, to your peers, to your teacher, and to yourself
3. Do your best on our classroom assignments

Missing Work

1. If students fail to turn in work on the anticipated due date (normally at the end of the class period unless stated otherwise) points will be taken off from full credit. If assignments are late for more than a week, students can't earn more than half credit on an assignment. (Remember half credit is better than 0 credit entered into the gradebook)

Rewards/Discipline Procedures

1. If students follow classroom rules, show growth in classroom activities, they can earn small rewards from our sticker store or treasure chest. If the whole class follows these expectations consistently, once a quarter students will vote on a reward (ex. science movie day in class, STEM activities, extra recess. etc)
2. If students do not adhere to classroom rules, they will need to fill out a "Bad Day Log" reflection paper.

1st Offense/Paper: lost of experiment participation/free time/ time off recess

2nd Offense/Paper: Parent contact

3rd Offense/Paper: Parent contact/principal meeting

How to stay current with the class

Our weekly assignments are scheduled on our Google Classroom. To access our class please go to.
