

Bradley County Schools Insurance Charge Form

Bradley County Schools is also offering an additional Device Insurance for all students. This charge serves as an insurance policy and covers the cost of all regular maintenance of software and hardware for the device for one year and covers the **first** incident of accidental damage. All damage is tracked and recorded in the Bradley County Schools' One to One portal. The charge covers screens, batteries, motherboards, keyboards, and all computer/chromebook ports. The cost of the Insurance Charge is \$30 per year.

This charge does not cover the loss of the device, cosmetic damage, or damages caused by intentional misuse or abuse. If families elect to not purchase the insurance, families will be responsible for any damage associated with the device. The charging cord that comes with the device is not covered by this charge and the replacement cost is the parents/students responsibility.

By authorizing this agreement, I acknowledge that I understand the expectations and terms of the insurance charge provided by Bradley County Schools and what the device insurance charge covers.

Payments are CASH/CHECK ONLY. Payments are made to SCHOOLS not the Bradley County Schools District. Please return this document to your school.
