

STUDENTS

Kindergarten Screening Child Health and Disability Prevention (CHDP) Program

The Governing Board recognized the importance of identifying potential physical and mental disabilities at an early age so that appropriate treatment can prevent or lessen the damage they may cause. In cooperation with the county child health and disability prevention program, the Superintendent or designee shall provide the parents/guardians of all kindergarten students with information regarding the health screening and evaluation services and other benefits provided under Health and Safety Code 124100 (Health and Safety Code 124100)

Currently enrolled first grade students shall meet the Child Health and Disability Prevention requirements by 90 days after first grade entry.
