

# Steele Creek Elementary School

## Replacement Project

The 2023 general obligation bond referendum presents us with a unique opportunity to enhance the learning environment and educational opportunities for our students. It aims to offer more academic options, alleviate overcrowding, and support safe schools. Here are the highlights of the project that will impact our school communities:

## School Board Member District 2

The Steele Creek Elementary School project involves the onsite replacement of the current facility with a modern 45-classroom baseline school. This initiative aims to create an upgraded and contemporary learning environment for students, equipped with advanced amenities. By constructing a new facility, Steele Creek Elementary School seeks to enhance the overall educational experience, providing students with a conducive space that supports academic growth and fosters a positive atmosphere for their development.

**Estimated Cost:**  
**\$80,830,528**

### Questions for CMS?
