

## Access Clever from Home

It is best for your child to login to either the Microsoft Edge or Google Chrome browser in order for Clever to work properly. This installs the Clever extension, which is required to access many of the apps in Clever. Without logging into the web browser, your child may receive account error messages for many apps listed.

The directions outline how to login to Edge or Chrome, access Clever, and login to Clever. If you have any questions, please fill out the [Family Support Web Form](#).

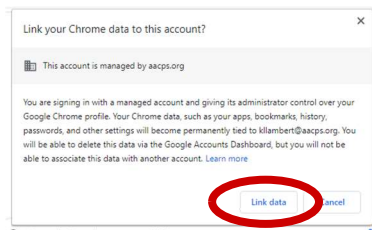

### STUDENTS WILL ONLY HAVE ACCESS TO APPS ON THE TEACHER PAGE

#### Logging into the Google Chrome Browser
