

Health Science

Provide quality care

The Health Science Career Cluster focuses on preparing students to plan, manage, and provide healthcare services, including therapeutic care, diagnostics, health informatics, support services, and biotechnology research and development.

This pathway prepares students for careers in the healthcare field by teaching skills in patient care, medical diagnostics, health technology, and biomedical research.

PROGRAMS OF STUDY

Diagnostic &
Therapeutic
Services

INTRODUCTION COURSE

Principles of Health Science

CONCENTRATION COURSE

Medical Terminology

CONCENTRATION COURSE

Health Science Theory,
or
Health Science Theory
with Clinical
Anatomy and
Physiology

ADVANCED COURSE

Practicum in Health
Science-Other

Industry-Based Certifications

- **Certified Clinical Medical Assistant**
- **Certified EKG Technician**
- **EMT - Basic**
- **Certified Patient Care Technician**
- **Pharmacy Technician**
- **Registered Dental Assistant X-Ray Certification**

Exploration Activities

- Join Health Occupations Students of America (HOSA)

Work-based Learning

- Do clinical rotations at a community wellness center, hospital, assisted living, or nursing home.
