PARENT ACCOUNTS IN SCHOOLOGY

If you are a new parent accessing Schoology for the first time:

1. Please access <https://app.schoology.com/login/forgot>
2. Enter the email that you use for PowerSchool
3. Select **Send My Login Info**.
4. From there, follow the link in your email to access your account, where you will be prompted to change your password. This password is ONLY for accessing Schoology, and is not connected to the password you use for PowerSchool.

If you have an existing Schoology Parent account:

1. As long as you were using the same email address that we have listed for you in PowerSchool, your password is the same as it has always been, and you can login as you typically do at <https://app.schoology.com/login>.
2. If you were using a different email address than the one listed in PowerSchool, or you have forgotten your password, you should follow the steps for new parents listed above.
