

## **School Calendar**

~~By March 1, the superintendent will prepare several possible calendars for study purposes. These calendars will be reviewed with principals. Each will explain the options available to their staff members. Staff will be asked to express their preference through an advisory ballot.~~

~~Parents will also be advised through the district newsletter of the possible calendars under study for the following year. They will be encouraged to express their opinions. Results of these surveys will be presented to the Board at its April meeting. The board shall be asked to adopt a calendar at the May meeting.~~

**By March 1, the superintendent or designee will poll staff, students and parents for the following calendar preferences:**

- Start date**
- Winter break dates**
- Spring break date (will be aligned with Lyle calendar if possible)**
- Extra break days preferences**
- Parent/teacher conference dates**

**A calendar will be prepared that satisfies the desires of the greatest number of people. The superintendent will attach requested inservice days.**

**The draft calendar will then be submitted to the Board for approval and may, in the interest of expediency, be approved with contingent changes.**
