

The Arts Mastery-Based Credit Procedure

Demonstrating Mastery/Proficiency in The Arts

The district will manage the assessment process so that students seeking mastery-based credit can demonstrate mastery/proficiency in art skills. Mastery-based credit can be used either for awarding credit in place of a traditional course, or for credit recovery purposes.

Students may recover credit by demonstrating mastery in the following ways:

- The Student may recover 1 art credit if the student meets standard on another approved state alternative that meets the graduation requirement.

Students may obtain 1 arts credit for passing a district-created assessment that is aligned to state learning standards. Students do not need to have attempted and failed a course before being eligible for these options.

- A combination of assessment approaches, as defined by the district

The district collects and annually reviews disaggregated data to see which subgroups of students are receiving mastery-based credit. If disproportionality is found, the district takes appropriate actions to ensure equitable access to these crediting opportunities.
