

KDS Middle School

Service Learning

Building Empathy

01

Students learn to *respect* and understand the feelings and experiences of others through learning and engagement as they embark on their journeys of *personal growth* at Kent Denver

02

Collective Voice

Students work together with their peers and various partners to build *community* across differences, beginning to cultivate *integrity* through honest collaboration and dedication to their goals

Connect to Curriculum

03

Students start to develop *wisdom* by exploring how their service connects to curriculum while considering the impact of their education on their interactions with others

04 Experiential Learning

Through active engagement with diverse populations, students gain a deeper understanding of community challenges, *personally grow* from direct experiences, and develop *respect* for others

Engaging in Reflection

05

Students reflect on their service learning experiences to gain *wisdom* from their unique interactions while practicing *integrity* in evaluating their commitment to themselves and others

06

Advocacy & Action

Students begin to leverage the skills they have acquired through service learning to follow their passions and contribute to *community* building and advocacy as they enter Upper School
