

Adult Day Centers provide social, health, and personal care services to adults who need supervised care during the day. Adult day centers can be an alternative to home care. The goal is to enable continued community-based living for individuals with physical or cognitive limitations, and provide respite for the caregiver.

Adult Day Centers are one of the best options for adult caregivers who are in need of regular respite care in order to return to the workforce, relax, see to errands, appointments, and other responsibilities.

Services can include:

- Personal care services
- Nursing services
- Activities that help meet physical, social and fun needs
- Nutritional meals
- Therapeutic services
