

Psych Chair Intro

Audio	Video
[Dr. Gwynette] Hi, my name is Frampton Gwynette. I am the Chair of Psychiatry and Behavioral Medicine here at L.S.U. Health Shreveport. I started on July 1st, 2025,	Man in dark suit with light blue tie (Dr. Gwynette) in front of purple background with repeating gold and white L.S.U. Health Shreveport Logo Text: Frampton Gwynette, M.D. Chair, Department of Psychiatry and Behavioral Medicine
and I'm very excited to be here. I've been rounding with our wonderful faculty and team, and I've been getting to know what they're passionate about, what their strengths are, and there are so many exciting things that we're going to do here. I've also been learning about Shreveport and the extended northwest Louisiana community, and I'm excited to bring some new areas of growth to our department that reflect the needs of the community. Personally, my clinical interest includes autism spectrum disorder. I'm interested in treating patients with autism throughout the lifespan, as well as incorporating their families into the care plan. I'm really thrilled to see all the amazing resources we have in the field of autism here at LSU Health Shreveport, and I'm looking forward to helping those resources grow and expand to serve our patients.
