

PROGRAM MISSION, GOALS, STUDENT LEARNING OUTCOMES, & PHILOSOPHY 2025-2026

Mission

The purpose of the Meridian Technology Center Radiologic Technology program is to prepare competent, well trained radiographers for a career in the field of diagnostic imaging.

Program Goals and Outcomes

Goal 1 Students will demonstrate clinical competence.

Outcome 1.1 Students will perform accurate positioning skills for a given activity.

Outcome 1.2 Students select appropriate technical factors.

Goal 2 Students will communicate effectively with patients and healthcare professionals.

Outcome 2.1 Students will communicate effectively with patients.

Outcome 2.2 Students will communicate effectively with healthcare professionals.

Goal 3 Students will develop critical thinking skills.

Outcome 3.1 Students adapt positioning for non-routine procedures.

Outcome 3.2 Students analyze radiographic images for diagnostic quality.

Goal 4 Students will model professionalism.

Outcome 4.1 Students display professional behavior.

Outcome 4.2 Students demonstrate professional work ethics.

Philosophy

Our philosophy of instruction fosters individual learning styles in an environment that emulates a “real world” approach to learning. We believe our role as radiologic technology educators is to lead the student radiographer from where they are to where the medical imaging industry needs them to be.
