

BULLOCH ACADEMY STUDENT AI GUIDELINES

Student work must reflect your own understanding and effort. Turning in AI-generated work as one's own is a violation of Bulloch Academy's honor code.

Always Allowed

GETTING STARTED

Brainstorm ideas, research topics, and find helpful information to get started on assignments!

UNDERSTANDING YOUR WORK

Check answers, get help with difficult concepts, practice skills, and review lessons!

IMPROVING YOUR WORK

Get writing suggestions to make your writing clearer, discuss ideas, and receive feedback on completed work!

Teacher's Discretion

FOLLOW TEACHER GUIDELINES

Respect any specific restrictions on AI use set by teachers for certain projects or assignments.

Never Allowed

USING AI TO COMPLETE INDEPENDENT WORK

Avoid using AI to complete assignments where independent work is required.

CLAIMING AI'S WORK AS YOUR OWN

Never claim AI-generated content as your own without proper citing.

LETTING AI THINK FOR YOU

AI can help you learn, but only you can show what you really know.

COPYING INSTEAD OF CREATING

Write your own essays and do your own thinking; copying AI's work and saying it's yours is cheating.

STUDENT DATA PRIVACY PRACTICES

ALL AI TOOLS MUST MEET FERPA AND COPPA COMPLIANCE STANDARDS TO PROTECT STUDENT PRIVACY.

- LOGIN CREDENTIALS SHOULD NEVER BE SHARED BETWEEN USERS
- PERSONAL IDENTIFIERS SHOULD NEVER BE INPUT INTO AI TOOLS
