EXECUTIVE SUMMARY

The Roseland School District's 2021-22 First Interim report presents the charter's financial status for the reporting period of July 1, 2021 through October 31, 2022. The First Interim report is a snapshot of the charter's current fiscal condition and assumptions based on current information. This report includes adjustments made to the budget to reflect updated enrollment and average daily attendance factors determined since the original budget was adopted. This report also includes adjustments made to the budget that reflect expenditures that have been planned since the original budget was adopted.

Revenue assumptions for the current year are based on the State's enacted budget and School Services of California's (SSC) dashboard projections for the Multi-Year projection. Budget revisions to revenues and expenses are made throughout the year to reflect changes as needed.

The major changes to the 2021-22 First Interim Budget since the Adopted Budget was prepared and approved in June 2021 are summarized below:

Revenue:

- An increase in Local Control Funding Formula (LCFF) revenue of \$661,294 due to an increase from the original adopted budget in enrollment and an increase in Concentration Grant and Lottery rates per ADA.
- An increase in Federal and State Revenue of almost \$1.8M for the COVID relief funds. These funds may be broadly used for activities that directly support academic achievement and mitigate learning loss, as well as address health and safety concerns, related to the impacts of the pandemic.
- An increase in Federal Revenue (Title I, II, III & IV) of \$141K.

Expenditures:

- An increase in personnel costs (for staff serving the District) as a result of the creation of several new positions that have been created since the original budget adoption. These positions include the District portion of the Director of Human Resources and the Director of the Whole Child, two new Kindergarten teachers, several new Instructional Assistant positions, a Foods Services Assistant and many new COVID support staff. Many of these positions are funded from categorical dollars, most of which are linked to COVID relief funding.
- An increase in costs for substitute teachers.

Positive Certification:

- The Roseland School District is financially solvent and will be able to fulfill its financial obligations, including funding the mandatory reserve levels, for the current and next two subsequent years.

Next Steps:

The Roseland School District will prepare the next budget update during the Winter/Spring 2022. This report will reflect the District's financial position for the period ending on January 31, 2021.

The Second Interim Budget report will be paired with the mid-year Supplemental LCAP, and is expected to include a variety of adjustments to expenditures that reflect the shifting needs and priorities of the Roseland Charter School as this school year winds to a close. These adjustments will include reductions in costs for salaries and benefits for positions that have been budgeted for the full year, but have not been filled for the duration of the year due to staffing shortage issues. Additional refinements to revenue projections based on updated average daily attendance information or other planning factors will also be included in that report.

INTRODUCTION

The Roseland Elementary School District (District) serves students in grades PreK-6 on three elementary school sites: Roseland Elementary, Sheppard Elementary, and Roseland Creek Elementary. The District also serves approximately 120 Charter elementary students in fifth-sixth grades at Sheppard and Roseland Creek. The majority of students promoted to middle school enroll in the Roseland Charter School for their secondary education. The Roseland Charter School is an independent charter sponsored by the Roseland District.

The District's Superintendent also serves as the Roseland Charter's Executive Director, and the District's CBO also serves as CBO for Roseland Charter School. The charter school contracts with Roseland School District for its entire staff for its secondary and elementary programs.

Traditional school districts use the governmental fund accounting model and modified accrual basis of accounting for their governmental activities. The authoritative source of Generally Accepted Accounting Principles (GAAP) for this model is Governmental Accounting Standards Board (GASB). In contrast, charter schools that operate as a nonprofit public benefit corporation pursuant to 501(c)(3) of the Internal Revenue Code use the not-for-profit accounting model and the accrual basis of accounting. The authoritative source of GAAP for this model is the Financial Accounting Standards Board (FASB). This model more closely resembles private-sector (for-profit) accounting than governmental fund accounting.

The District uses the SCOE maintained Frontline California ERP (Escape) for its financial system and financials are presented in the standardized account code structure (SACS) as required by the State of California.

The District receives revenue per the California Local Control Funding Formula, which incorporates planning factors to project multiyear revenues based on enrollment and average daily attendance (ADA). Revenue is received on a per pupil basis, with primary state aid being allocating using variable amounts for different student grade level spans.

BUDGET ASSUMPTIONS

Planning Factors

The District utilizes the School Services of California Dartboard to obtain the planning factors associated with projecting revenue and expenditures. These rates include a general cost of living adjustment factor (ie. the “Planning COLA”), as well as the grade span adjusted rates for the per pupil LCFF, lottery and mandatory block grant allocations. Planning factors for STRS/PERS retirement costs are also included.

Revenue: Enrollment and Average Daily Attendance

The funded enrollment for a school district is based on a count of students taken on a particular day – the first Wednesday in October. This is referred to as “Census Day” (or CBEDS day, for the name of the original report that included this student count). The District’s projected enrollment for the 2021-22 school year, as per the student count taken on CBEDS day is 1469. This represents an increase in enrollment of 34 students from the enrollment of 1435 that was projected at the time the original budget was adopted.

The District's enrollment on census day (CBEDS) 2021-22 is shown on the chart below.

SCHOOL SITE	2021-22 Grades	2021-22 Projected CBEDS Enrollment
Roseland Elementary School	TK-6	470
Roseland Creek Elementary School	TK-6	452
Sheppard Elementary	TK-6	545
Out of District Placements		2
TOTALS		1469

The District has enjoyed a three year period of increasing enrollment. Overall District enrollment for this and the past two years can be seen in the chart below:

Year	CBEDS Enrollment (excluding Out of District placements)
2019-20	1407
2020-21	1433
2021-22	1469

This trend of increasing enrollment is not consistent with the enrollment trends throughout Sonoma County, where enrollment has been declining for several years. One reason why enrollment has increased is because the Roseland Charter School has offered elementary classes that are located inside the Roseland School District facilities. This program has been phased out over the past several years; the final year (grade 6) of the Charter Elementary program is planned to occur during this school year. As the program has been phased out, students who may have enrolled in the Charter program may have enrolled in the District program instead. Because the program is intended to be fully phased out this year, we do not anticipate continued shift into the District program. For this reason, the future year revenue projections have been calculated with the assumption that enrollment will remain at the same number as the current year.

State funding is based on a per pupil rate for students' actual Average Daily Attendance (ADA) as reported on the Period 2 Attendance (P-2) report to the state in April. Because student attendance drives our funding, it's important to estimate enrollment and ADA as accurately as possible. School districts with declining enrollment use their prior year adjusted P-2 ADA for current year funding.

With the uncertainty of the pandemic, LEAs and lawmakers anticipated that schools could be severely impacted and provisions were made to protect LEAs from state funding losses. The budget agreement included an ADA “hold harmless” provision for 2021-22 that relies on adjusted ADA for 2019-20, therefore, actual P-2 ADA for the 2020-21 fiscal year is irrelevant.

The actual ADA for the 2021-22 school year through October 31, 2021 has proven to be approximately 90% of enrollment. This is a significant decline from the District’s typical ADA rate of approximately 96% of enrollment. This drop is directly associated with the quarantine requirements for students who have contracted or been exposed to COVID-19.

At this time, it is anticipated that the “hold harmless” provision that allows districts to utilize the pre-pandemic ADA levels for funding will expire with the 2022-23 and subsequent fiscal years, although this topic is currently being debated legislatively. For this reason, funding projections for the next two years have utilized this 90% attendance rate and the current enrollment of 1469 to estimate revenues.

Local Control Funding Formula – Current and Future Years

The State’s funding model for schools, Local Control Funding Formula (LCFF), is intended to provide a funding mechanism that is simple and transparent while allowing Local Education Agencies (LEAs) flexibility in allocating resources to meet local needs. The calculation of LCFF revenue is made using a worksheet called the “LCFF Calculator”. The LCFF Calculator utilized to determine the revenue projections included in the First Interim budget is available for review in this report.

LEA’s receive additional supplemental and concentration LCFF funds for their unduplicated pupils (students eligible for free/reduced meals, English language learners, and foster youth). The target LCFF supplemental funding is an additional 20% of the target base rate for the school’s percentage of unduplicated pupils. Concentration funding is an additional 65% of the target base rate for the school’s unduplicated pupil count over 55%. Following the adoption of the District’s 2021-22 budget in June 2021, the Concentration funding rate increased from 50% to 65%.

The District’s estimated unduplicated pupil percentage for 2021-22 is 92.94%, which results in a 3-year rolling percentage funded rate of 93.70%. This reflects a decrease of 0.16% from the funded rate of 93.86% included in the original adopted budget. (The state utilizes a 3 year rolling average in order to shield agencies from extreme changes in this funding factor.) This is a very stable metric for the Roseland School District over the past several years. For this reason, revenue was projected for the future years using a very similar, but conservative, 93.26% rate.

COVID Relief Funding and Expenditures

The District has been allocated more than \$4.6M in state and federal funding for pandemic relief. These funds may be used for a wide variety of expenditures that should address the various impacts of the pandemic, including mitigating learning loss and student social emotional issues, ensuring that our facilities employ evidence based strategies to prevent transmission of COVID-19, and

maintaining overall agency operations. This funding may be utilized through the 2023-24 school year.

The District has prepared a multiyear plan for the use of these dollars that includes expenditures for personnel (including increased substitute teacher costs), supplies and services. This plan may be viewed in the COVID Funding Expenditure Plan worksheet that is included later in this report.

Expanded Learning Opportunity Program

In July 2021, at the time of the State Budget adoption, the Expanded Learning Opportunity Program (ELOP) was introduced. This program is designed to provide a significant level of funding for school Districts that serve a high rate of students who are socioeconomically disadvantaged, English language learners, or foster youth. Approximately 93% of District students would be eligible for this program. The District has been allocated approximately \$1.5M for the 2021-22 school year. This allocation is anticipated to increase in future years.

Districts who take advantage of this funding are required to provide the following level of services to students who meet the required criteria:

- Minimum of 9 hours per school day of programming (enrichment programming in excess of the required instructional minutes may be provided by classified or contract workers)
- Minimum of 30 days per year of non-school day (ie. Summer or other break periods) programming for 9 hours per day

The District has created a position, the Director of the Whole Child, which will be responsible for designing and implementing this program. This position will have additional duties, and therefore, will be 50% funded out of this program. The First Interim budget for the 2021-22 and future years includes a budget to match the potential costs for this position. As additional services for this program are defined, additional revenue will be budgeted to match the anticipated expenditures. The full allocation for this program will be budgeted when the program is fully implemented.

Staffing Expenditures

Personnel costs include certificated and classified union contract agreements along with management and classified/confidential positions for 2021-22. The Roseland Charter School contracts with the District for all Charter personnel. As a result, the District budget includes revenue for these personnel, and corresponding salary/benefit costs. The Charter School created new positions that are funded through the general fund and through COVID relief dollars. Revenue and corresponding expenses are included in the District's budget, including adjustments for these new positions.

Annual costs for step & column salary increases of 2% and health insurance premiums of 4% are included in the MYP as well as the annual increases to the district's pension programs, State Teachers Retirement System (STRS), and Public Employees Retirement system (PERS).

Since the original budget adoption, the Roseland School District has added several key staff positions to support program needs that are funded out of the General Fund (ie non-COVID related positions). These include the following:

- Additional Kindergarten teachers(2.0 FTE)
- Director of Human Resources (0.50 FTE)
- Additional Food Service Assistant (0.375)

A number of positions have been created since the original budget adoption that are being funded out of COVID relief funding. A summary listing of these positions can be seen in the COVID Funding expenditure plan that is included in this report.

Supply and Service Expenditures

Instructional materials, supplies, services, and other operating expenses continue to reflect the District's priorities as identified in the 2021-22 adopted LCAP. An increase of 2% is added to supplies, services and other operating expenses for 2022-23 and 1% in 2023-24.

Contributions to Restricted Program

A contribution of \$2,266,735 from the unrestricted budget has been budgeted to cover any Special Education expenditures that exceed the state and federal allocation for services.

The Cafeteria program is currently operating as one SFA within the District - Fund 13. Although this fund should be self-sustaining by state and federal reimbursements for school-based meals, the District has budgeted a contribution from the unrestricted general fund to offset estimated unreimbursed expenses of approximately \$141K.

CONCLUSIONS

The District is financially solvent and anticipates being able to meet all financial obligations for this and the next two subsequent years, including funding the required minimum reserves. The Administration recommends that the Board of Directors approve a Positive Certification for the First Interim budget.
