information, and more.

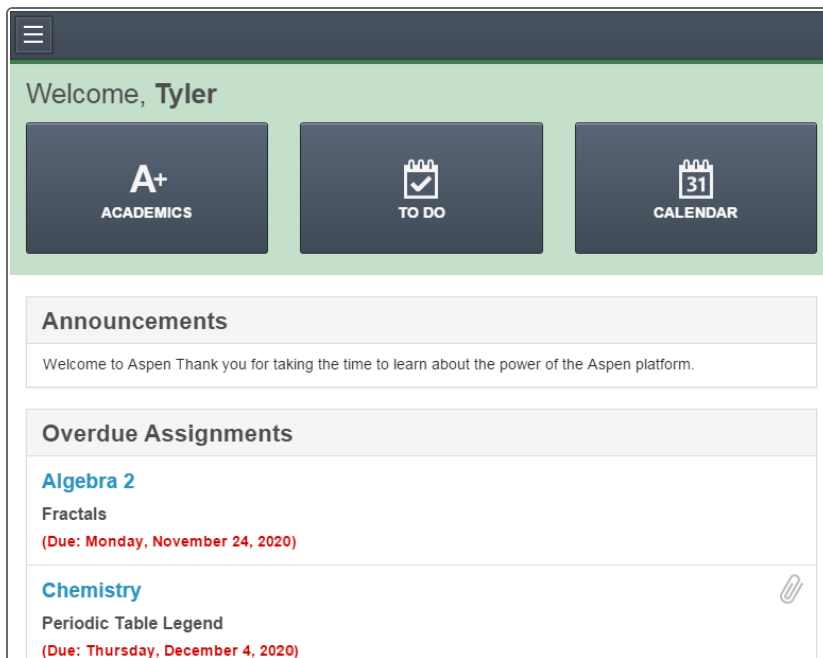

Note: If you have not done so already, you need to create an Aspen account.

A student and their parents/guardians can access the Student and Family portals in two ways:

- Access the computer, such as a laptop:

- Access , such as a smartphone or tablet:

Note: Your district's settings determine whether you use Aspen Mobile or the [updated Family portal interface](#) for mobile access to your student's information.

Aspen for Students and Families

Students and family members, particularly those who are primary adult contacts for a student, use the Family and Student portals to see the student's information, academic progress, groups and calendars.

Note: If you have not done so already, you need to create an Aspen account.

With Aspen's Family and Student portals, teachers, parents and students have an arena for open communication. Parents have one login to access all of their children's information, and students can enter course requests online.

For a quick peek at your school, class and groups information, use the **Pages** tab.

Depending on how your district or school has the portal set up, you can use the [tab](#)**Family/My Info** tab to view information including demographics, attendance, conduct and transcripts.

For the current school year, use the **Academics** tab to view the following academic information for each class:

- Details, including student attendance summary and grades
- Assignments, including due dates and scores

You can also:

- Use the **Groups** tab to view the groups the student is enrolled in (such as Band and Math team).
- Use the **Calendar** tab to view a monthly calendar. Customize and color-code the calendar for each student to include their academic, extracurricular and school events. You can also view assignments you should be working on and when they are due on your Calendar.
- Report a bullying incident from the homepage.
- Email teachers, and sign up for email subscriptions for when grades fall below a specified threshold.
- Receive email notificationsReceive email notifications on your mobile device from the district, school or teachers about announcements, alerts and events.
- Receive automatic notifications and messages on your mobile device.

Note: Depending on your district's settings, you may need to verify the name and date of birth of your student(s) the first time you log on to the Family portal. In the desktop version of Aspen, enter this information for each student in your family in the **Request for Student Access** widget. Then, you can view your student's information in the Family portal.

Creating an Aspen Account

At the login screen, parents and students can create an Aspen account.

Note: Your (or your child's) school manages your Aspen user account. If you cannot log in or have other problems, contact your school. (Follett does not manage user accounts and cannot help you access the system.)

Using Pages in the Family and Student Portals

Pages are web pages that help keep you up-to-date on the latest information about academics, activities, and school. The **Pages** tab appears when you log on to Aspen and could contain the following:

- **Home Page:** Click  to view your Home page. Often this is your school's Page.
 - **Academic Pages:** Click the down arrow to view class pages in this category. At the beginning of each school year, you will have to use the Page Directory to add class pages to your **Quick Access** menu.
 - **Athletic and Club Pages:** Click the appropriate down arrow to view Pages in the athletic and club categories, such as *JV Football* and *Drama Club*.
 - **Other Pages:** Click the down arrow to view Other Pages, such as for a parent-teacher organization or after-school program.
 - **Page Directory:** To view a screen that lets you add and remove Pages from your **Quick Access** menu, search Public Pages by keyword, and browse available Pages.
- Notes:**

 - The categories of Pages that appear in the **Quick Access** menu depend on which groups you are a member of. For example, if you do not participate on a sports team that has a Page, you will not see the **Athletic** category.
 - All Aspen users have a Home page and a Page Directory.
 - Not all groups, clubs, teams, and classes have their own Page.

Following are some things you can do on the **Pages** tab:

- Use the To Do widget.
- Submit assignments online.
- Use the Page Directory.
- Take an online quiz. (Aspen Curriculum & Learning)
- Set your forum preferences.
- Post to a forum.
- Take a survey.

Home Page in the Portal

Click the **Home** icon  or **Pages** tab to view your Home page. Often this is your school's Page and contains school news and announcements.

All students and parents automatically see the To Do widget on their Home page. You can do the following [\(depending on the preferences you set\)](#):

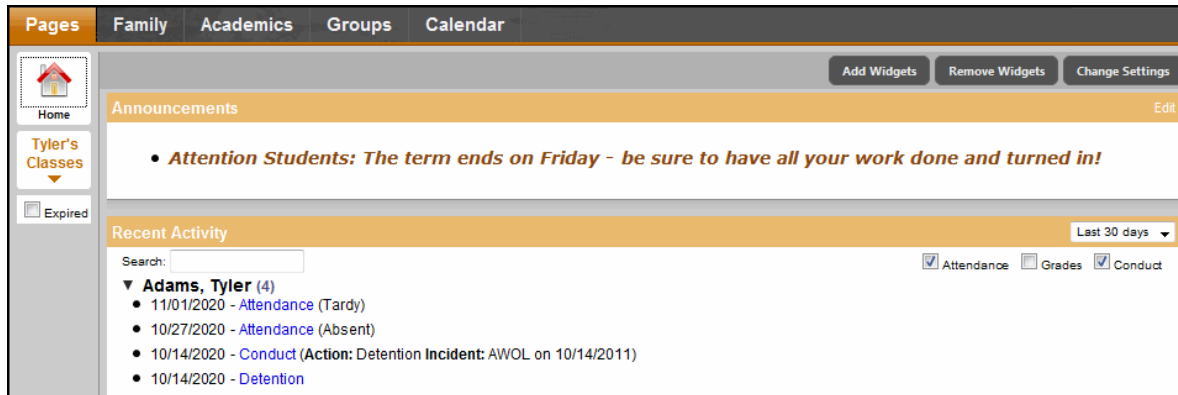

- View [announcements](#) for your or your student's classes, school, or district.
- [View your or your student's recent attendance, conduct, and grades activity](#).
- Display and use personal [school links](#).
- Display and use links to [external websites](#) (such as your school's website).
- Use a [calendar](#).

You might also see the following widgets:

- **Published Reports:** Provides access to reports such as report cards.
- **Student Recent Activity:** Displays recent grade, conduct, and attendance activity.
- **Tasks:** Lets you use a wizard to verify contact information or [report a bullying incident](#).

View Recent Activity

You can add the Recent activity widget to the homepage. Click **Edit Page** and select **Student Recent Activity**. It appears in a box on the homepage.

To view recent activity:

1. Select the number of days in the past you want to view:
 - **Today**
 - **Last 7 days**
 - **Last 30 days**
 - **Last 60 days**

Note: The system remembers the last date range you viewed, and automatically displays information for all areas for that date range.

2. Select the **Attendance**, **Grades**, and/or **Conduct** checkboxes.
3. Next to each student's name, a number lists how many records meet your search criteria. To view a student's information, click the arrow  next to his or her name. A summary of the record appears.
4. To view specific information for a record, click the record. For example, if a student receives a grade for an assignment, click the record to view the assignment details.

5. In the **Search** field, enter text you want to search for. For example, if you want to find the latest Latin grade, type **Latin**. To view all records again, delete the text in the **Search** field.

Note: You can determine whether you want recent activity to display on your Home page in your [user preferences](#).

Note: If your school does not take period attendance for a course, it will not appear in the **Recent Activity** list.

Submit Assignments Online

You can manage your assignments online in the Student portal. See what is due today, tomorrow, and any assignments that are overdue. For Google Docs™ assignments, see [Complete a Google Docs Assignment](#).

There are several ways to manage and submit your assignments online:

The Date Due column displays the date you need to upload your file by.

The Status column displays the status of your assignment. If you already submitted a file, the column displays the date and time you submitted it. If it is late, the column displays **Late**. To upload your file to your

teacher's gradebook, click . The Submission Upload pop-up appears.

Academic, Athletic, Club, and Other Pages in the Portal

In addition to [the Home page](#), you likely have access to other types of Pages. Page access is determined by the groups that you are a member of.

For example, a student might see English Literature, Pre-Calculus, Biology, and American Studies pages; a basketball Page; a chess tournament Page; and an after-school program Page.

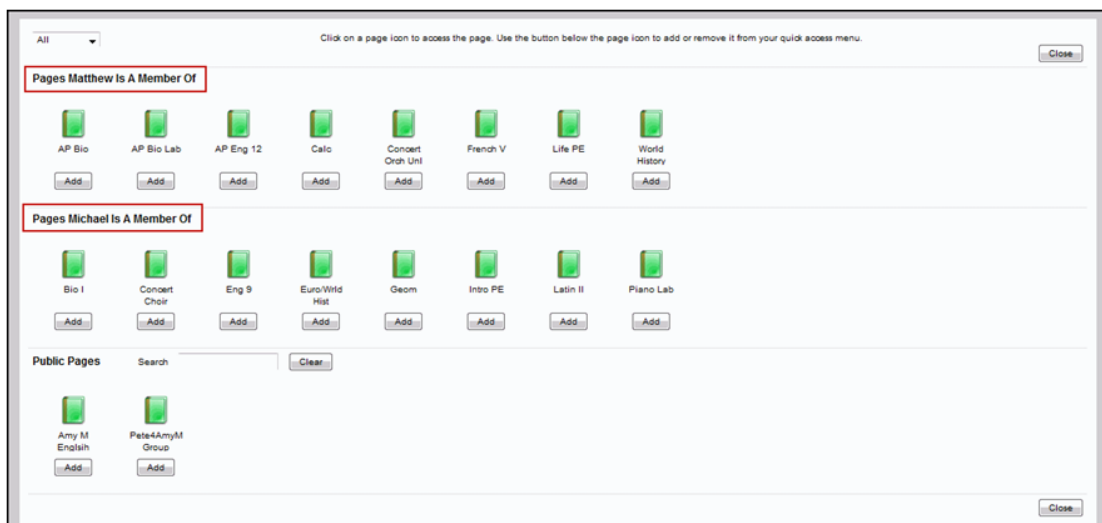

A parent has access to each of their children's Pages – including academic, athletic, club, and other Pages. Plus, if they are a member of the parent-teacher organization, they would have access to the PTO Page.

Notes:

- Not all classes, sports teams, clubs, and groups have their own Page.
- Just being a member of a Page does not mean that you automatically see it on your **Pages** tab. [Use the Page Directory](#) to add and remove Pages from your **Quick Access** menu as needed.
- Removing a Page from the Page Directory does not delete it.

To view Pages for yourself and your student(s):

1. Go to the Home page or **Pages** tab.
2. Click **Page Directory**. The following pop-up appears.

Note: If you have more than one student, you will see the Pages that each one is a member of.

3. For each of your students, click **Add** under the icon/name of the Page you want to add to your **Quick Access** menu.
4. Click **Add** under the name/icon of any public Pages you want to add.

Note: You can browse public Pages and add them to your **Quick Access** menu, but this does not mean that you are a member of the group. For example, if your school Page is a public Page, you would be able to read a blog that is posted but not create your own entries.

5. Click **Close**. The Pages you selected are accessible from your **Quick Access** menu.

Use the Page Directory

Use the Page Directory to determine which Pages appear in the Quick Access menu on the Pages tab and homepage. The Quick Access menu is the left-hand bar containing your favorite Pages.

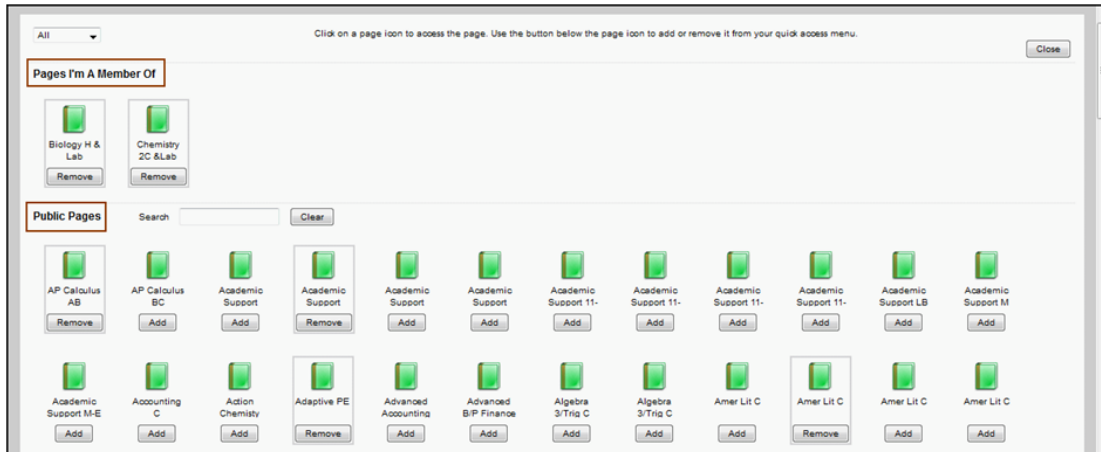

The Page Directory lets you see which Pages you are a member of, as well as add and remove Pages from the Quick Access menu. You can also browse a Page to decide whether you want to add it to your menu.

Notes:

- At the beginning of every school year, you need to use the Page Directory to add the Pages you want to see to your Quick Access menu. They do not automatically appear.
- In the Page Directory, all Pages that have been added to your Quick Access menu have a gray box around them as a quick visual cue.
- Throughout the school year, you can change which Pages appear on your Quick Access menu. For example, maybe you used to check the Drama Club Page often, but now that the performance is over, you do not need to visit that Page. You can remove it from your Quick Access menu; then, if you need to access it again in the future, you can add it back to the menu.

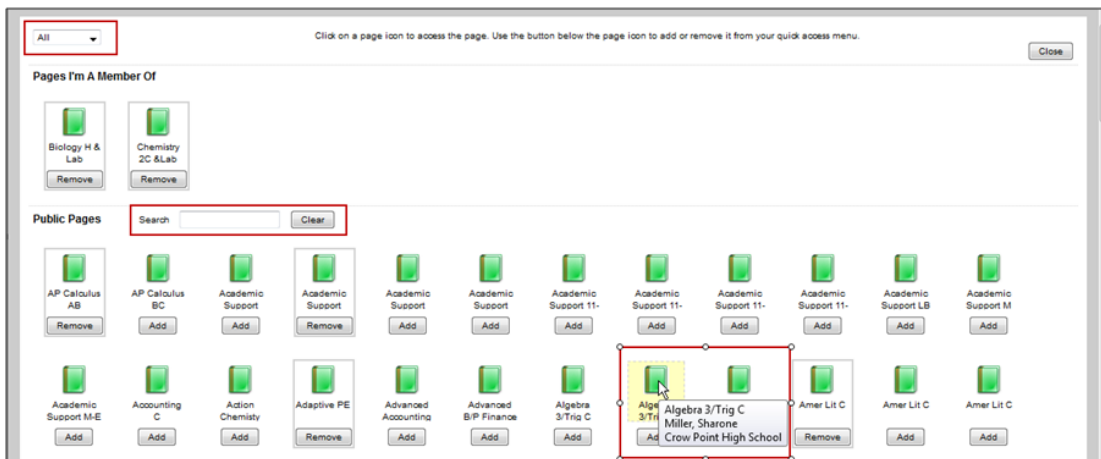

To view which Pages you have access to:

1. Go to the Home page or **Pages** tab.
2. Click **Page Directory**. The Page Directory pop-up appears.

Under **Pages I'm a Member Of**, an icon appears for each Page you are a member of, such as the Yearbook, Drama Club, or Varsity Soccer page.

Under **Public Pages**, an icon appears for each Page that all users are able to view, such as your school's Page or the district Page.

3. If there are a large number of Pages, there are two ways to narrow down the list. Do either or both of the following:

- Click the **All** drop-down at the top of the pop-up to select **Academic**, **Athletic**, **Club**, or **Other**. Only the type of Page you select appears. Select **All** to return to the full list of Pages.

Note: If you do not have access to a particular type of Page, you will not see it in your drop-down. For example, if you are not a member of any sports team that has a Page, **Athletic** will not be an option.

- Within the **Public Pages** area, in the **Search** field, type a key word, such as **Literature**. Any public Pages with that word in their name appear. To return to viewing all public Pages, click **Clear**.

Note: You can browse public Pages and add them to your **Quick Access** menu, but this

does not mean that you are a member of the group. For example, if your school Page is a public Page, you would be able to read a blog that is posted but not create your own entries.

- To determine which Pages appear in your **Quick Access** menu, do any of the following:
 - To view a Page's details – the Page title, adult responsible, and which school the Page is associated with – hover over the Page icon.
 - To browse a Page to see if you want to add it to your **Quick Access** menu, click the Page's icon. The Page opens, and the Page name appears under **Browsing** in the **Quick Access** menu

- To add a Page to your **Quick Access** menu, under the Page's icon/name, click **Add**.
- To remove a Page from your **Quick Access** menu, under the Page's icon/name, click **Remove**.

Note: Removing a Page does not delete it; it just makes it unavailable to select from the **Quick Access** menu.

- Click **Close**. The Pages you added are now accessible from your **Quick Access** menu.
- To show and hide individual Pages on your **Quick Access** menu, do the following:
 - To show (expand) the Pages in a particular category, such as **Academic**, click the down arrow ▼ under **Academic**.
 - To hide (contract) the Pages in a particular category, click the up arrow ▲. The list of Pages in that category contracts.

Set Your Forum Preferences

If your district allows photos to be used for forums, you can decide whether you want the photo that is in Aspen to be displayed next to your forum posts. If you do not want to use the photo in the system, a generic silhouette will appear next to your name whenever you post to a forum.

To set your forum preferences:

- On the settings bar, click **Set Preferences**. The preferences pop-up appears.
- Click the **Collaboration** tab.
- Under Forum Options, at the **Forum posts per page** field, type the number of posts you want to see on each page.

Note: For forums with a lot of posts, typing a small number means there will be many pages to click through; typing a big number means you will have to do more scrolling to get to the bottom of the page.

- If your district allows school photos to be used in forums and you have a photo in Aspen, the **Use school photo** field and your photo appear. Do one of the following:

- Select this checkbox to have this photo appear next to any posts you make to forums.
- Deselect this checkbox to not use your school photo. A generic silhouette will appear next to your name for any posts you make to forums.

Note: If your district does not allow photos or your district allows photos but you do not have one in the system, the **Use school photo** field does not appear. A generic silhouette will appear next to your name if you post to a forum.

Post to a Forum

Some of your Pages will include a Forums widget, so that Page members can have online discussions. A forum typically represents a category or theme, and each can contain one or more topics where the discussions take place.

Note: Only Page administrators can create forums. Any Page member can create a topic for that forum.

Forums are either moderated or unmoderated. If a forum is moderated, a Page administrator has to approve your post before it can be viewed by all Page members. If a forum is unmoderated, your post can be seen by all Page members as soon as you submit it. Page administrators always have the option of hiding a post, even if it has been approved.

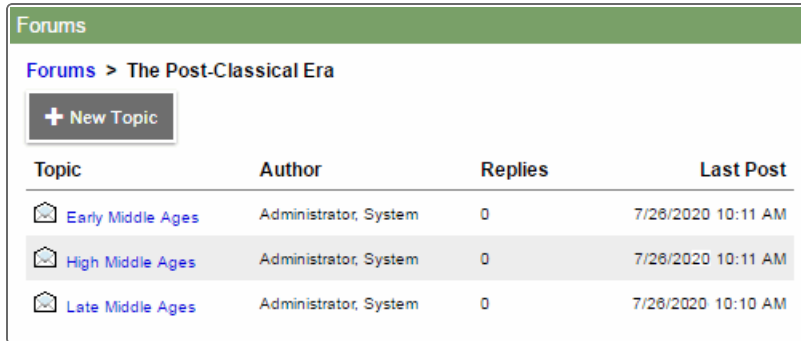

When you create or reply to a post, either the photo of yourself that is in Aspen or a generic silhouette appears, depending on your district and personal forum preferences.

To post to a forum:

1. In the Forums widget, click the name of the forum you want to post to, such as The Post-Classical Era.

Course Requests for Next Year

Your district might allow students to enter course requests in the Student portal. Then, parents can [view these requests in the Family portal](#).

In the Student portal:

View and enter your requests for next year's courses. Your school will determine the date range when you can select courses. During this time, you can come here to enter and make changes at any time.

When you finish, click **Post** to notify your counselor that you are done.

To enter your requests:

1. Log on to the Student view.
2. Select **My Info > Requests**. The Requests page appears.
3. At the top of the page, in the **Instructions** box, read and follow the instructions for entering your requests.

Note: If any of your courses are required or recommended by your teachers, they might automatically appear as requests when you first view the Requests page.

4. In the **Primary requests** box, select your requests for the different subject areas. For example, to select your request for a math course, click **Select** next to Math. The courses you can request appear.

Use the following tips when selecting a course to request:

- If your teacher recommended a course, a checkmark appears in the **Select** column. That course becomes a course request when you click **OK**.
- The **Status** column displays information about the course, such as if the course is full, or if this is the course your current teacher recommended for you. Depending on the subject, you can either select any course, or are required to accept the courses recommended for you.
- If your teacher entered comments about a recommendation for you,  appears in the **Status** column. Click the icon to view the comments.
- If your school allows you to set the priority for your courses, you can type a number in the **Priority** column to prioritize them. 1 is the highest priority. Leave the field blank if you do not want to set a priority value.

Example: If you have three elective courses and you want to prioritize them, you would type 1 for the course you want most, 2 for the course you want second most, and 3 for your third choice. Your priorities might look like this:

Select	CourseNumber	CourseDescription	mic level	Credit	Prerequisite	Status	Priority
<input type="checkbox"/>	OA091	Writing Seminar		0.0			<input type="text" value="2"/>
<input type="checkbox"/>	OA130AP	Microeconomics AP		0.0			<input type="text" value="1"/>
<input type="checkbox"/>	OA355	Science Team		0.0			<input type="text"/>
<input type="checkbox"/>	OA356	Forensic Science		0.0			<input type="text"/>
<input type="checkbox"/>	OA357	Intro to Human Anatomy & Physiology		0.0			<input type="text" value="3"/>

5. Select the checkbox in the **Select** column of the course(s) you want to request, and click **OK**. The requests now appear on your Requests page.

Note: To remove a request from your Requests page, click the **Select** checkbox again to deselect it.

6. In the **Notes for counselor** box, type any notes to your counselor regarding your requests. Your counselor can view these notes when reviewing your requests.

Your requests are automatically saved after you enter them on the Requests page. Your counselor can view them anytime.

7. After you complete entering your requests, click **Post** at the bottom of the page. This lets your counselor know that you are finished entering requests. If you have not selected enough courses to satisfy requirements for your academic track, the system lets you know which area you need to make more requests in:

Note: Once your counselor approves your requests, you can no longer make changes to your course selections.

In the Family portal:

To view the student's course requests for the next year:

1. Click the **Family** tab.

Subscribe to Email Notifications

When your school uses email notifications, parents and students can subscribe to receive email messages about the following events:

- Conduct
- Health visit
- Daily attendance
- Class attendance
- Minimum grade (a grade falls below a threshold you define)

Note: Aspen creates a record for each event and gives it a timestamp. Your district sets up a "job" that tells Aspen to send the emails. The timing of when the email is sent depends on the timestamp on the record and when your district runs the job (usually within a seven-day window).

Example: In the Hale school district, Aspen runs the job to send email notifications for conduct incidents every Tuesday night. On Tuesday April 1, Aspen runs the job as usual. On Wednesday April 2, Cole has a conduct incident. When Aspen runs the job on Tuesday, April 8, an email notification is sent for Cole. This is because the incident's timestamp is after April 1, and falls within the window of when the job was run (April 1 through April 8).

To subscribe to email notifications:

1. Do one of the following:
 - In the Family portal: Click the **Family** tab.
 - In the Student portal: Click the **My Info** tab.

- Click the **Notification** side-tab.

The screenshot shows the 'Subscriptions for Email Notifications' page. At the top, there are tabs for 'Pages', 'Family', 'Academics', 'Groups', and 'Calendar'. Below the tabs, the user's name 'Students :: KP - Adams, Morgan' is displayed. The page has a sidebar on the left with categories like 'Details', 'Contacts', 'Daily Attendance', 'Health', 'Conduct', 'Transcript', 'Assessments', 'Schedule', 'Membership', 'Transactions', and 'Documents'. The main content area is titled 'Subscriptions for Email Notifications' and includes a 'Reports' dropdown and a 'Help' dropdown. Below this, there are two email addresses listed with checkboxes: 'davidadams@personalemail.com' and 'ekansaki@eudora.com'. A table of subscription options follows:

Subscribe	Name	Description
<input type="checkbox"/>	Attendance	This subscription will notify you of any attendance entry for this student.
<input type="checkbox"/>	Class Attendance	This subscription will notify you of any class attendance entry for this student.
<input type="checkbox"/>	Conduct	This subscription will notify you of any conduct incident by this student.
<input type="checkbox"/>	Grades	This subscription will notify you when any grades below a specified threshold are entered for this student. Grades are scaled as a percent from 0 to 100. If a student receives a class assignment or test grade that is below the specified threshold, a notification will be sent to your email address. In the space below, please enter a grade threshold to use for determining what grades to report. This should be a number from 0 to 100. For example, an entry of 75 would trigger a notification for any grade entered that scaled below 75%.
<input type="checkbox"/>	Health Visit	This subscription will notify you of any visit to the school nurse by this student.

Below the 'Grades' row, there is a 'Grade Threshold' input field with the value '0'.

- At the top of the page, any email addresses associated with your account appear. Select the checkbox next to each email address you want to receive notifications.
- After viewing the description of each email, select the **Subscribe** checkbox if you want to receive that email notification.

Note: For the **Grades** notification, define a **Grade Threshold** between 1 and 100. The system will send an email when the student receives a grade below that percentage.

For each subscription, the system sends the appropriate messages to the designated email account. To view/change this account, click **Set Preferences** on the settings bar at the top of the page, then the **Security** sub-tab.

Note: Your changes to this page are saved automatically. There is no **Save** button.

Notes:

- If **Current Year/Current Term** is selected for the year/grade term drop-downs, then all classes that are current appear.
- If **Previous Year/Current Term** is selected for the year/grade term drop-downs, then the filter reverts to Previous Year/All Terms.
- When you click the **Academics** tab, a list of your classes appears. If zero (0) values appear in the attendance columns, it might mean that your school does not take period attendance for the class. calculated,  appears. Hover your cursor over the icon to view the description.

Notes:

Use My Resources

Use My Resources in Aspen's Student portal to store and organize your schoolwork.

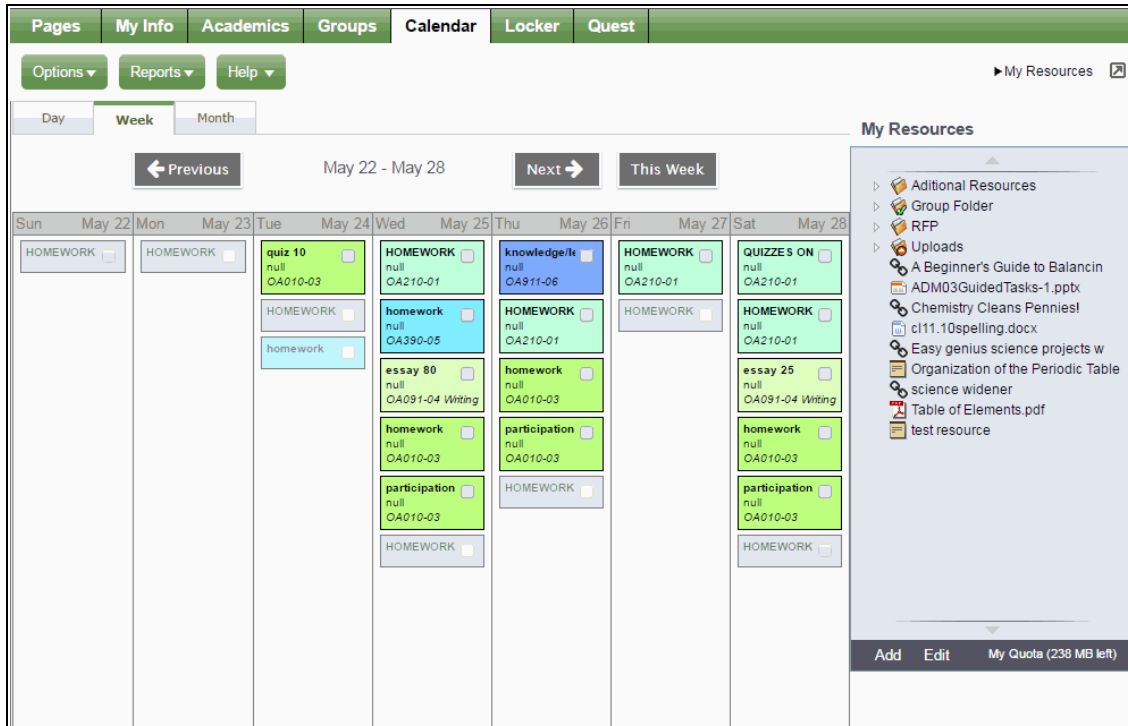

You need to know how to do the following:

- [Add folders](#)
- [Add files](#)
- [Add weblinks](#)
- [Add notes](#)

- [Edit resources](#)
- [Keep enough free space](#)

To use My Resources:

1. Log on to the Student portal, and then click the **Calendar** tab.

2. In the upper-right corner, click **My Resources**. My Resources opens.

The Group folder automatically appears. Inside it, there is a folder for each group you belong to, such as each of your classes, the debate team, and the yearbook club.

You can access files and links within those folders, but you cannot edit them.

Add Folders

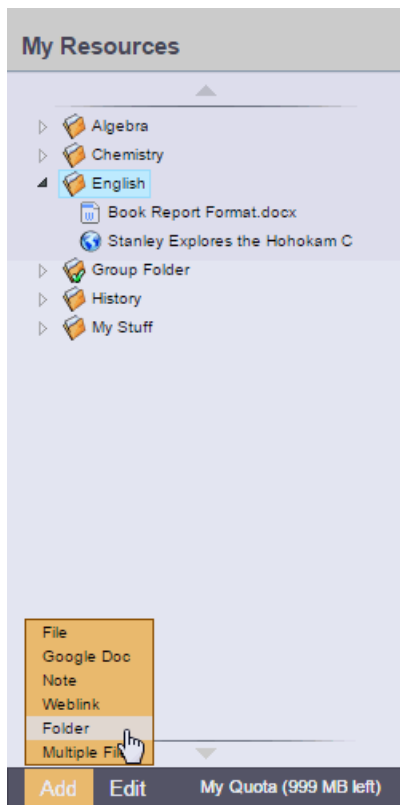

Add your own folders to My Resources to organize your school work. For example, you might make a folder for the current year. Within that folder, create a folder for each class. Then, within each class folder, you can store your files, links, and even notes. My Resources can act like your online class binder!

You can also create a student portfolio to store your best work from each school year. This way, when senior year rolls around, you have quick and easy access to all of your portfolio pieces. You can even link to your portfolio video that you have posted on the web.

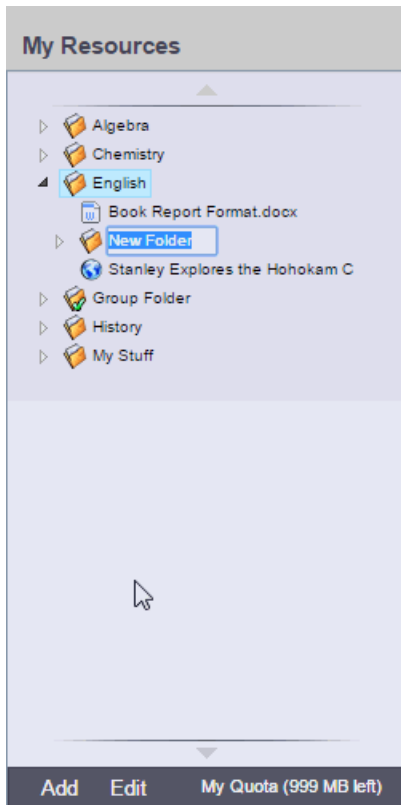

Note: My Resources has a storage quota set by your district; you have a limited amount of storage space.

To create folders in My Resources:

1. Be sure that the Group Folder is not selected.
2. At the bottom of My Resources, click **Add**, and then **Folder**:

A new folder appears in My Resources:

3. Type a name, and then press **ENTER**.
4. To make a folder within that folder, select the folder; and then click **Add > Folder**. The new folder appears within the folder you first created.

Note: If your district allows custom Group Resources for each tab on a page, any folder you add to My Resources that matches the name of a tab does not appear in other tabs on the page. An example would be if you had a tab for each of the three groups in your class, Red, Blue and Green, a folder named Green would not appear in the Red and Blue tabs.

Note: You can click, drag, and drop files, links, notes, and folders within the My Resources folders that you create.

Add Files

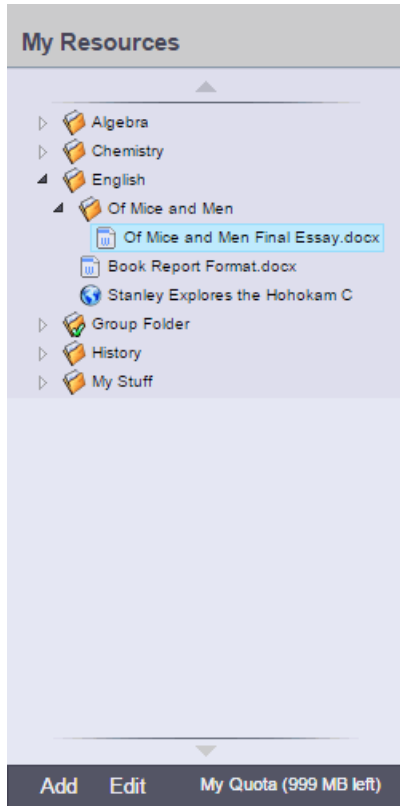

My Resources is a great place to store drafts of your work. This way, you can access them from any computer with Internet access.

There are two ways to add files to My Resources:

- Add one file at a time.
- Add multiple files.

To add one file to My Resources:

1. Select the folder you want to store the file in.
2. At the bottom of My Resources, click **Add**, and then click **File**. The Upload pop-up appears.
3. Next to the file field, click **Browse** to find the file on your computer.
4. Click **Open**.
5. If you want, type a description of the file in the **Description** field.
6. Click **Save**. The file appears in the folder:

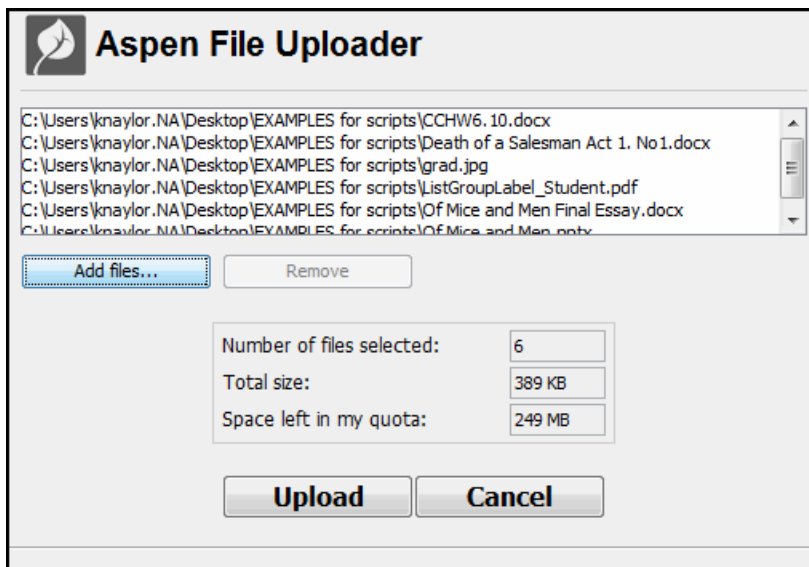

To add multiple files to My Resources:

1. Select the folder you want to store the files in.
2. At the bottom of My Resources, click **Add**, and then click **Multiple Files**. Select how you want to open the Aspen Uploader, and then click **OK**:

The Aspen File Uploader appears:

3. Click **Add files**.
4. On your computer, find the files you want to upload. To select more than one file, press **CTRL** while you click each file name if you are using a PC, or press **Command** if you are using a Mac.
5. Click **Open**. The file names appear in the Aspen File Uploader.
6. Click **Upload**. The Aspen File Uploader uploads all of the files to the folder you selected.

Add Weblinks

Store links to websites in My Resources. For example, you might have a folder that is holding all of the resources you need for your history paper. You can store the link to each of your online sources in that folder, right alongside your draft, and any other resources you might need.

To add a weblink to My Resources:

1. Go to the web address you want to save in My Resources.
2. Copy the web address in the **Address** bar of your web browser.
3. In My Resources, select the folder you want to store the files in.
4. At the bottom of My Resources, click **Add**, and then click **Weblink**.
5. Type a **Name** and **Description** to help you identify the link.
6. In the **URL** field, paste the web address that you copied in Step 2.
7. Click **Save**.

Add Notes

Create and save notes within My Resources. For example, if you can use your tablet or laptop in class, you might type your notes for class and save them. Or, if you are at the library doing research for a paper, you can type your notes, and copy weblinks into your notes to save all of your information.

To add notes to My Resources:

1. Select the folder you want to store the files in.
2. At the bottom of My Resources, click **Add**, and then click **Note**.
3. In the **Title** field, type a title for your note. This is the title that appears in My Resources.
4. In the **Text** box, type your text. You can use the formatting in the text editor, such as bulleted lists or different fonts. You can also insert weblinks or images:

The screenshot shows a 'Details' dialog box for creating a note. The 'Type' is set to 'Note'. There is a 'Title *' field and a 'Text *' area. The text editor includes a toolbar with icons for inserting tables, images, links, lists, and source code. The text area contains the HTML code 'body p'. At the bottom are 'Save' and 'Cancel' buttons.

5. Click **Save**.

Note: You can also upload Google Docs™ to My Resources for easy access.

- Ethnicity

1. To see student demographic details, tap  > .
2. Tap **Notification** > **Details**. The Details screen appears.

3. Tap < **Back** to return to the Home screen, or tap a different option under **Notification**.

Mcneeley, K.J.		Father	

Note: Tap any column header to sort it in ascending alphabetical order. Tap it again to sort it in descending order.

3. Tap < **Back** to return to the Home screen, or tap a different option under **Notification**.

Notifications

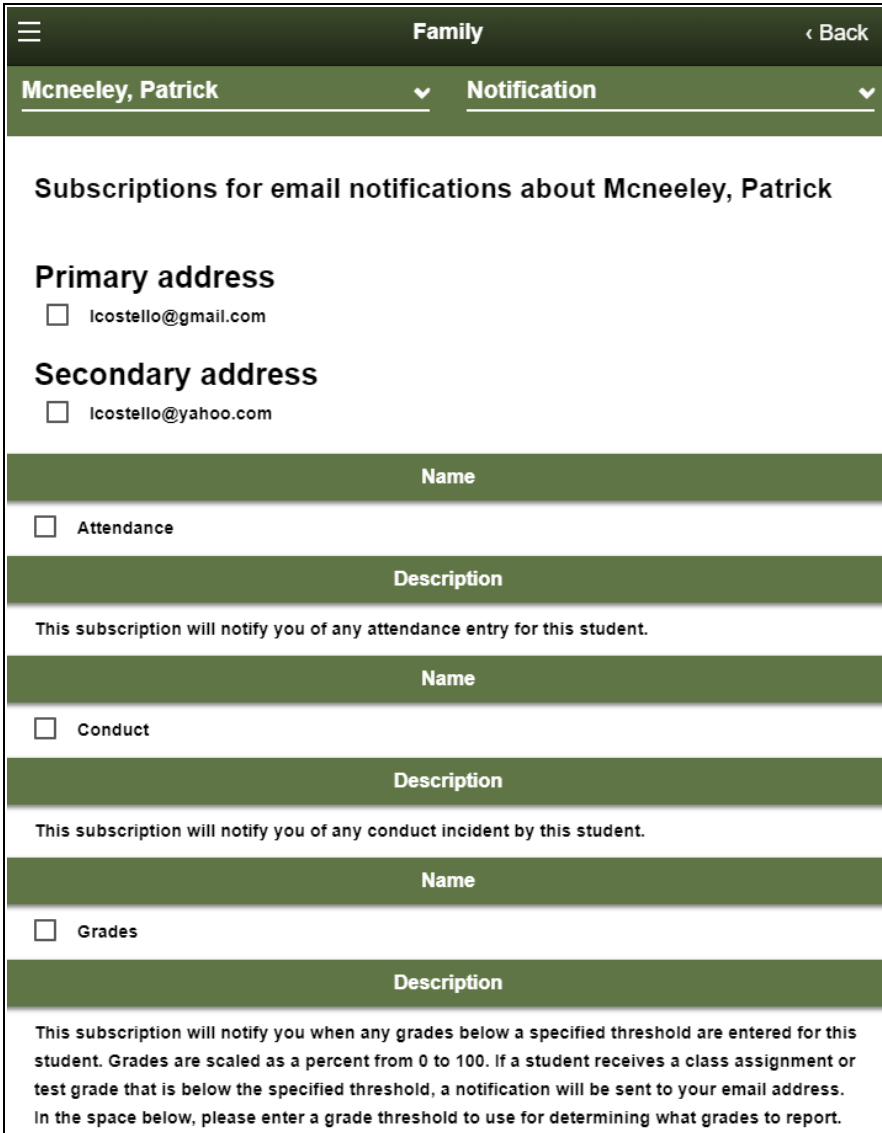

If your school uses email notifications, parents can subscribe to receive email messages about the following events:

- Conduct
- Health visit
- Daily attendance
- Class attendance
- Minimum grade (a grade falls below a threshold you define)

Note: Aspen creates a record for each event and gives it a timestamp. Your district sets up a "job" that tells Aspen to send the emails. The timing of when the email is sent depends on the timestamp on the record and when your district runs the job (usually within a seven-day window).

Example: In the Hale school district, Aspen runs the job to send email notifications for conduct incidents every Tuesday night. On Tuesday April 1, Aspen runs the job as usual. On Wednesday April 2, Cole has a conduct incident. When Aspen runs the job on Tuesday, April 8, an email notification is sent for Cole. This is because the incident's timestamp is after April 1, and falls within the window of when the job was run (April 1 through April 8).

1. To subscribe to email notifications, tap  >  Family. The Notifications screen appears.

The screenshot shows the 'Family' portal for 'Mcneeley, Patrick'. The 'Notification' dropdown is set to 'Notification'. Under 'Subscriptions for email notifications about Mcneeley, Patrick', there are three sections:

- Primary address:** lcostello@gmail.com
- Secondary address:** lcostello@yahoo.com

Three subscription options are listed, each with a 'Name' header, a checkbox, and a 'Description':

- Attendance:** Attendance. Description: This subscription will notify you of any attendance entry for this student.
- Conduct:** Conduct. Description: This subscription will notify you of any conduct incident by this student.
- Grades:** Grades. Description: This subscription will notify you when any grades below a specified threshold are entered for this student. Grades are scaled as a percent from 0 to 100. If a student receives a class assignment or test grade that is below the specified threshold, a notification will be sent to your email address. In the space below, please enter a grade threshold to use for determining what grades to report.

- At the top of the page, any email addresses associated with your account appear. Tap the checkbox next to each email address you want to receive notifications.
- After reading the description of each subscription, tap the checkbox next to its name to receive that email notification.

Note: For the **Grades** notification, define a **Grade Threshold** between 1 and 100. The system will send an email when the student receives a grade below that percentage.

- Tap **Submit** to save.

Note: For each subscription, the system sends the appropriate messages to the designated email account. To view/change this account, tap **Preferences**.

Groups

You can see a detailed list of the groups your student belongs to, including:

- Group name
- Group category (such as Club, Class, Academics, etc.)
- Advisor's name

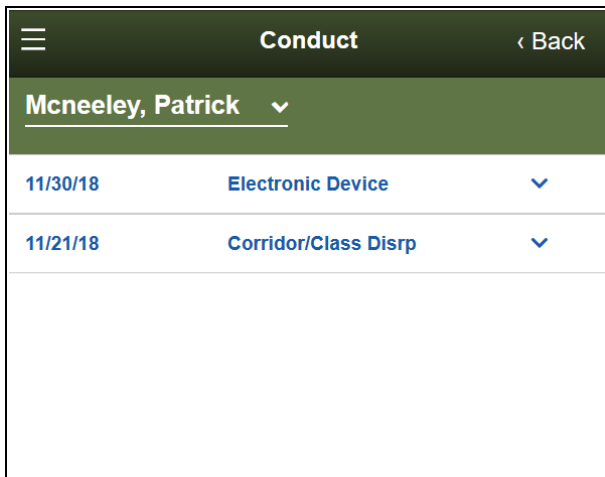

- To see the list your student belongs to, tap **Groups**.
- Tap **< Back** to return to the Home screen, or tap a different option under **Notification**.

A screenshot of a 'Search' filter input field. The word 'Search' is at the top left. Below it is a white rectangular box with a light gray border containing the placeholder text 'Search by name' and a magnifying glass icon on the right side.

To view a Page:

1. Tap a Page name to view it.

2. The way a Page appears in Aspen Mobile depends on your screen size:
 - If you are viewing a Page on a device with a smaller screen, such as a smartphone, Pages appear with a list of expandable widgets on it.

- Tap  to minimize the widget.

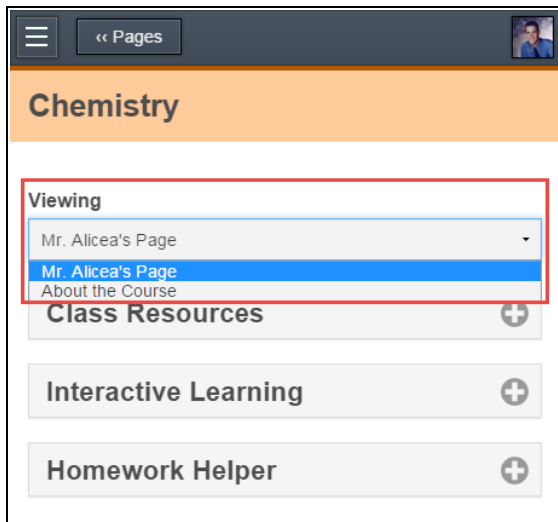

Note: You can download a file in Aspen Mobile by tapping its name.

- If you are viewing a Page on a mobile device with a larger screen, such as a tablet, the content within the widgets automatically expands.

The screenshot shows a mobile application interface with a dark header bar. On the left is a hamburger menu icon, and in the center is a button labeled « Pages. On the right is a small profile picture of a person. Below the header, the content is organized into two main sections. The first section is titled 'Interactive Learning' and contains a sub-section 'Ignition' followed by an 'Interactive Lesson' with the text: 'Check out the virtual lab. Try striking a match.' The second section is titled 'Homework Helper' and contains a sub-section 'Balancing Equations'. Under 'Balancing Equations', there is a 'Homework' section with a detailed text explanation of balancing the equation $\text{SnO}_2 + \text{H}_2 \rightarrow \text{Sn} + \text{H}_2\text{O}$. The text explains the process of balancing oxygen and hydrogen atoms, resulting in the balanced equation $\text{SnO}_2 + 2 \text{H}_2 \rightarrow \text{Sn} + 2 \text{H}_2\text{O}$.
