Learning Objectives and Activities

SWBAT answer the following questions:

- Who are we as a classroom community, as individuals, and group members?
- What are my values and the values of my classroom?
- What have we accomplished?
- How important is self-esteem?
- What does children's literature teach us about self-concepts?
- What is the connection between self-esteem and academic achievement?
- What are some elements of self-esteem? How might we teach children about the importance of self-esteem?

SWBAT demonstrate understanding of the following:

- A lifelong learner can improve academic performance by identifying their own strengths and weaknesses and can achieve individual success by using self-reflection to evaluate one's self as an individual, learner, and community member.
- Teacher instruction and modeled behavior must promote an environment that enhances a student's ability to grow and perform personally and academically.

Learning Activities:

- Introduce themselves and each other.
- Examine and self-explore personal characteristics and values.
- Record self-reflections in an autobiographical essay examining themselves as individuals, learners, and community members.
- Identify characteristics and causes of high and low self-esteem.

Alignment to Standards

RI.CR.9-10.1 Cite a range and thorough textual evidence and make clear and relevant connections, to strongly support an analysis of multiple aspects of what an informational text says explicitly and inferentially, as well as interpretations of the text.

RI.MF.9-10.6 Analyze, integrate, and evaluate multiple interpretations (e.g., charts, graphs, diagrams, videos) of a single text or text/s presented in different formats (visually, quantitatively) as well as in words in order to address a question or solve a problem.

W.WP.9-10.4 Develop and strengthen writing as needed by planning, revising, editing, rewriting, trying a new approach; sustaining effort to complete complex writing tasks; seeking out feedback and reflecting on personal writing progress; consulting a style manual (such as MLA or APA Style), focusing on addressing what is most significant for a specific purpose and audience.

W.WR.9-10.5 Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

W.SE.9-10.6 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation (MLA or APA Style Manuals).

SL.PE.9-10.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with peers on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively.

Learning Objectives and Activities

SWBAT answer the following questions:

- What are some benchmarks of physical growth?
- In what ways do Piaget's findings aid teaching and instruction?
- What are some characteristics and stages of normal development?
- What does Erikson have to say about social development?
- How dependent are we on language? To what degree does language influence culture and vice versa?
- What are some traits and capabilities of children ages birth to 1, 1 to 2, 2 to 3, and 3 to 5?
- What is significant about children at play?
- How do manipulative(s) facilitate learning?
- What are the factors that contribute to stress for children? What are some results of children being stressed?
- What factors contribute to learning in children, ages 6-10?
- What factors contribute to learning in pre-adolescents and adolescents?
- What factors contribute to learning in adolescents?
- What might be of help to troubled teens?
- In what ways has my "growing up" experience reflected different stages of physical, cognitive, moral, and social development?

SWBAT demonstrate understanding of the following:

- Developmental theories impact teaching by formulating explanations about why children act and behave the way they do and how they change over time.
- Human growth and development is based on a combination of genetics and

environment. Strategies and methods of teaching in the classroom must encompass the physical, cognitive, moral, and psychosocial stages that influence the development of a learner.

- Children's learning is expedited using play by realistic illustrations that encourage and facilitate complete and precise explanations through play.

Learning Activities:

- Identify physical developmental characteristics and stages from birth through age eighteen.
- Identify cognitive developmental characteristics and stages.
- Discuss some characteristics and stages of moral development.
- Describe psychosocial developmental characteristics and stages.
- Explain developmental characteristics of language and social cognition in the transference of knowledge and culture.
- Recognize evidence that Piaget and Vygotsky's theories are sound.
- Identify stages of development and play from birth to five years old.
- Identify various types of play of preschool children and the significance of their play.
- Investigate different types of manipulatives that facilitate learning.
- Identify ways in which children are pushed beyond age-appropriate physical, cognitive, moral, and psychosocial levels of development.
- Through elementary school observations, identify characteristic stages of development in children, ages six to ten.
- Through middle school observations, identify characteristic stages of development in children who are pre-adolescent and adolescent learners.
- Through high school observations, identify characteristic stages of development in adolescent learners.
- Design a manipulative or game suitable for hands-on kinesthetic learning for preschool or elementary school children.
- Discuss solutions to problems that teenagers frequently face.
- Synthesize information about physical, cognitive, cognitive, moral, and social development as they apply it to their own lives.

Mandatory Activities:

Physical Development

Power Point presentation on the principles of growth for all stages of development. In addition, create a picture cube by using pictures from all stages of your development.

SL.PI.9-10.4 Present information, findings, and supporting evidence clearly, concisely, and logically. The content, organization, development, and style are appropriate to task, purpose, and audience.

SL.UM.9-10.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance findings, reasoning, and evidence and to add interest.

Learning Objectives and Activities

SWBAT answer the following questions:

- How can lessons in science, math, and foreign language not only build learners' skills in these subjects, but also build interest in teaching in these critical need areas?
- How may the Teacher Cadet experience be enhanced, especially through analysis of and reflection on the work of others, as well as on the Cadet's own work?

SWBAT demonstrate understanding of the following:

- In applying instructional objectives, teachers must consider all stages of development, learning needs, accommodations (physical, social, and personal) to aid in the learning process.
- Analysis and reflection must be a consistent approach in development of the classroom and teaching experience.

CRP9. Model integrity, ethical leadership and effective management.
CRP10. Plan education and career paths aligned to personal goals.
CRP11. Use technology to enhance productivity.

Time Frame	2 Weeks
Topic	
Theme III: Experiencing the Profession Unit 5: Ethics and Professionalism	
Alignment to Standards	
RI.CR.9-10.1 Cite a range and thorough textual evidence and make clear and relevant connections, to strongly support an analysis of multiple aspects of what an informational text says explicitly and inferentially, as well as interpretations of the text. RI.MF.9-10.6 Analyze, integrate, and evaluate multiple interpretations (e.g., charts, graphs, diagrams, videos) of a single text or text/s presented in different formats (visually, quantitatively) as well as in words in order to address a question or solve a problem. W.WP.9-10.4 Develop and strengthen writing as needed by planning, revising, editing, rewriting, trying a new approach; sustaining effort to complete complex writing tasks; seeking out feedback and reflecting on personal writing progress; consulting a style manual (such as MLA or APA Style), focusing on addressing what is most significant for a specific purpose and audience. W.WR.9-10.5 Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation. W.SE.9-10.6 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation (MLA or APA Style Manuals). SL.PE.9-10.1 Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with peers on grades 9–10 topics, texts, and issues, building on others' ideas and expressing their own clearly and persuasively. A. Come to discussions prepared, having read and researched material under study;

explicitly draw on that preparation by referring to evidence from texts and other research on the topic or issue to stimulate a thoughtful, well-reasoned exchange of ideas.

B. Collaborate with peers to set rules for discussions (e.g., informal consensus, taking votes on key issues, presentation of alternate views); develop clear goals and assessment criteria (e.g., student developed rubric) and assign individual roles as needed.

C. Propel conversations by posing and responding to questions that relate the current discussion to broader themes or larger ideas; actively incorporate others into the discussion; and clarify, verify, or challenge ideas and conclusions.

D. Respond thoughtfully to various perspectives, summarize points of agreement and disagreement, and justify own views. Make new connections in light of the evidence and reasoning presented.

SL.II.9-10.2 Integrate multiple sources of information presented in diverse media or formats (e.g., visually, quantitatively, qualitatively, orally) evaluating the credibility and accuracy of each source.

SL.PI.9-10.4 Present information, findings, and supporting evidence clearly, concisely, and logically. The content, organization, development, and style are appropriate to task, purpose, and audience.

SL.UM.9-10.5 Make strategic use of digital media (e.g., textual, graphical, audio, visual, and interactive elements) in presentations to enhance findings, reasoning, and evidence and to add interest.
