

DOUGLAS COUNTY SCHOOL DISTRICT

Jared Rex - Director of Information Technology

Minden, Nevada - Douglas County School District is pleased to announce the appointment of Jared Rex as the district's new Director of Information Technology. Rex brings nearly two decades of leadership experience in educational technology and finance, as well as a track record of implementing transformative solutions that support student learning and operational excellence.

Rex most recently served as Technology Coordinator for Bath Local Schools in Lima, Ohio, where he led the implementation of a 1-to-1 computer program for all K-12 students, managed E-rate and technology grant funding, and modernized the district's technology infrastructure with a focus on cybersecurity and instructional support.

Prior to that, he spent seven years as Director of Technology at Napoleon Area City Schools, where he oversaw a districtwide technology replacement project, introduced 1-to-1 computing for PreK-12 students, and launched innovative programs like Esports and Drone Racing to engage students in new ways. His experience also includes service as Director of Technology and Student Services at Temple Christian School, where he spearheaded Ohio's first K4-12 1-to-1 device initiative and developed a college partnership enabling students to earn a technology degree while in high school.

A graduate of the University of Findlay with a Bachelor of Science in Business Management and an Associate of Applied Science in Accounting from James A. Rhodes State College, Rex describes himself as a servant leader who is passionate about delivering exceptional customer service, supporting staff and students, and ensuring all users have access to reliable, cutting-edge technology solutions.

"We're pleased to welcome Jared Rex as our new Director of Information Technology, bringing nearly two decades of servant leadership experience and a proven track record of transformative solutions to our district. His dedication to supporting staff and students with cutting-edge technology and updating our instructional technology infrastructure will undoubtedly enhance our commitment to student learning," said Frankie Alvarado, Superintendent.

Rex has also been active in his previous communities, serving on nonprofit boards and mentoring youth. He will begin his new role with DCSD this August. Please join us in congratulating Jared on his new role as Director of IT. For more information, please contact Hailey Sebahar, Director of Marketing & Communications, at hsebahar@dcsd.k12.nv.us.
