

Hello GLVP Homeschool Families,

Thank you for being a part of the Gull Lake Virtual Partnership. We hope your experience has supported your student's growth, learning, and discovery of their passions.

A few things as you finish your high school career:

- 1) You must exit the GLVP program to be removed from our system. Please go to <https://tinyurl.com/EXITGLVP> or scan the QR code to complete the Exit Form.
- 2) If you have taken any courses at Gull Lake Virtual Partnership or Gull Lake High School, you must request your transcript at www.parchment.com.
- 3) Make sure to collect all records or transcripts, including those from community college(s).
- 4) If applying to colleges, you must list any public school attended, including GLVP.

Your student might consider gathering letters of recommendation, preparing application essays, exploring FAFSA (Free Application for Federal Student Aid), shadowing/informational interviews with professionals, and/or investigating vocational/trade schools.

For any additional help, we recommend the [Home School Legal Defense Association](https://hsllda.org/about) (<https://hsllda.org/about>) where you will find articles including:

If you are creating a transcript, include items such as student information, school information, coursework, grading scale, GPA (grade point average), extracurricular activities/achievements (recommended, optional), standardized test scores (optional), signature (homeschool administrator) and date. Be accurate and detailed, use a professional format, consider software or templates (many free online), and keep official copies.

All the best in any future endeavors and your continued educational journey.
