SUMMER 2025

### DESTINATION: RETIREMENT

Summer vacation is here! Planning for your retirement can be a lot like planning a vacation: the longer you wait to plan, the more likely it will cost you more.

Although you may have a pension plan, that might not be enough to sustain you through retirement. To help achieve your retirement goals, your employer offers a 403(b) and/or 457(b) plan which can supplement your retirement income.

The roadmap to retirement savings includes:

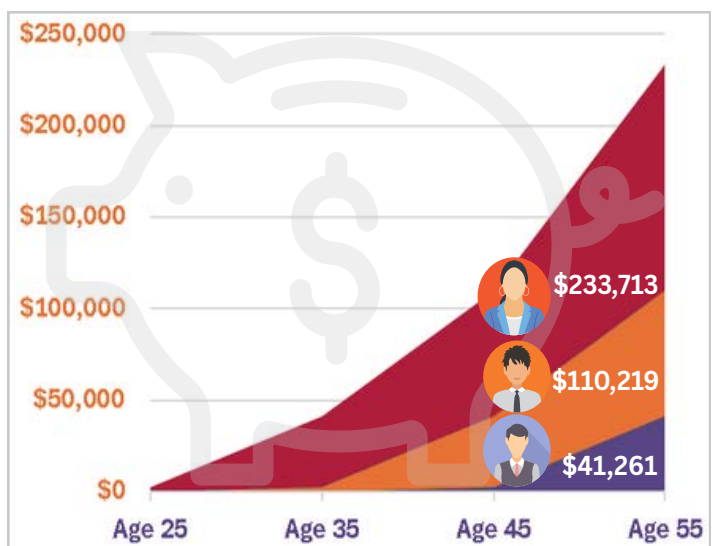

-  **Developing a budget:** Review your income and expenses to determine how much you can realistically save each month.
-  **Paying yourself first:** Even small, consistent contributions will grow over time.
-  **Opening a 403(b) or 457(b) account:** Find forms on your employer's plan at: <https://omni403b.com/SRA/Landing>
-  **Automating your savings:** Set up automatic contributions from your paycheck to your retirement account.

### The Power of Time and Compounding

The chart below shows the difference in time and accumulated value of your retirement contributions.

Hannah, Braden, and David all consistently contribute \$200 per month until age 55, but start at different ages.

		
HANNAH: Age 25	BRADEN: Age 35	DAVID: Age 45
Contributions: \$80,600	Contributions: \$54,600	Contributions: \$28,600
Return: \$233,713	Return: \$110,219	Return: \$41,261

*This chart assumes consistent contributions of \$200 per month with a 6 percent return, compounded annually. Balances shown are approximate.*

Regardless of your age, if you haven't already started contributing to a 403(b) or 457(b), now is the time get on the road to retirement. The sooner you start, the faster you can reach your destination.
