SUMMER 2025

DESTINATION: RETIREMENT

Summer vacation is here! Planning for your retirement can be a lot like planning a vacation: the longer you wait to plan, the more likely it will cost you more.

Although you may have a pension plan, that might not be enough to sustain you through retirement. To help achieve your retirement goals, your employer offers a 403(b) and/or 457(b) plan which can supplement your retirement income.

The roadmap to retirement savings includes:

- Developing a budget: Review your income and expenses to determine how much you can realistically save each month.
- Paying yourself first: Even small, consistent contributions will grow over time.
- Opening a 403(b) or 457(b) account: Find forms on your employer's plan at: *https://omni403b.com/SRA/Landing*
- Automating your savings: Set up automatic contributions from your paycheck to your retirement account.

The Power of Time and Compounding

The chart below shows the difference in time and accumulated value of your retirement contributions.

Hannah, Braden, and David all consistently contribute $200 per month until age 55, but start at different ages.

HANNAH: Age 25	BRADEN: Age 35	DAVID: Age 45
Contributions: **$80,600**	Contributions: **$54,600**	Contributions: **$28,600**
Return: **$233,713**	Return: **$110,219**	Return: **$41,261**

This chart assumes consistent contributions of $200 per month with a 6 percent return, compounded annually. Balances shown are approximate.

Regardless of your age, if you haven't already started contributing to a 403(b) or 457(b), now is the time get on the road to retirement. The sooner you start, the faster you can reach your destination.
