

# Welcome to Connected Holland Patent!

## OUR HUBS

We have hubs in HPE, the Middle School, and the High School. It's a quieter space for students to have lunch with friends or visit during study hall. It's also where we house our tangible goods, including everything from food for families to hygiene and clothing items that students can grab and go.

## What is a Connected School?

A Connected Community School links school districts with community partners to enhance family engagement and classroom programming, while also ensuring that families' basic needs are met.

"How can I help you today and make your tomorrow better?"

A single Point of Access system that connects students and families to any needed information, resources, or services.

## Meet Your Site Coordinators

We're here to help with any struggles, worries, or needs that may arise. If you need help (whether it's tangible items, assistance with housing, mental health, primary care, or anything else), please get in touch with one of us!

**Holland Patent Elementary and the High School**  
Site Coordinator - Dustin Trotz

Can be reached at [dustint@connectedcs.org](mailto:dustint@connectedcs.org) or by calling/texting me at (315) 525-3217.

**General William Floyd and the Middle School**  
Project Manager- Sarah Smith

Can be reached at [sarahs@connectedcs.org](mailto:sarahs@connectedcs.org), or by calling/texting me at (315)360-4314
