

Barker Central School District Winter Sports 2024

Please read ALL of the instructions below and follow the prompts to register here for participation in Athletics.

Submission of this registration does not automatically deem an athlete approved. Approval status will change to "Approved" or "Not Approved" after each submission is reviewed by the health office.

*****Please double-check the policy/agreement section before submitting to be sure both parent/guardian and student-athlete have signed in the correct boxes. If a correction is required, an email will be sent to the email address attached to the registration. Please continue to monitor your email.*****

A current physical must be completed on a NYS Health Examination within one year of the first day of the season. All students must have a current physical on file in the health office prior to participation. **Please upload all NEW physicals into your athlete's registration.

An automatic notification will be sent via email when your athlete's physical is going to expire. If you receive this mid-season, the physical will carry through for the duration of that current season. Please then provide an updated one prior to the next athletic season.

If you need assistance with the registration process please contact Arbiter Support. support@arbitersports.com, 1-800-311-4060
