

Device Protection Plan

Students enrolled in Beaumont ISD are assigned a district device and are responsible for all damages, whether intentional or accidental. Responsibility for repair caused by a malfunction or maintenance issue will be determined by the Beaumont ISD I.T. department.

Enrollment Information

The Chromebook Insurance Coverage Program is optional and provides an affordable solution for parents to reduce the financial burden if an accident or theft occurs.

Parents/guardians may decline to participate in the Device Protection Plan, but will be fully responsible for any associated costs for damage or theft. The Chromebook Protection Plan will cover one school calendar year (August-July) and is non-refundable, and will not be prorated for a partial year.

Prior to receiving a Chromebook, each student must complete the following:

1. Complete the Beaumont ISD Chromebook Protection Plan enrollment form to select enrollment or decline enrollment through the MySchoolBucks application available online at myschoolbucks.com or using the app.
2. To enroll in the Device Protection Plan, pay the \$30 in full in the MySchoolBucks online payment system.
3. **OR** To opt out, Choose Decline for \$0. You will be choosing to pay full price for your first repair.

Effective Coverage: Immediately once enrollment is complete and fee is paid in full.

Expiration Date: Device is covered until the last day of school or until the student withdraws from school, whichever comes first. If a student withdraws from Beaumont ISD the Device Protection Plan becomes null and void on that date. Devices not returned on the withdrawal date will be reported as stolen.

Coverage - One incident per year from the following list

- **Accidental Damage** - Pays for one **accidental** damage caused by liquid spills, drops, cracked screens, or any other unintentional event.
- **Fire** - Pays for loss or damage of the Chromebook due to fire. An official fire report from the investigation authority must accompany the claim.
- **Electrical Surge** - Pays for damage to the device due to an electrical surge.
- **Natural Disasters** - Pays for loss or damage caused by natural disasters.

Exclusions

- **Dishonest, Fraudulent, or Criminal Acts** - Will not pay if damage or loss that occurs in conjunction with a dishonest, fraudulent, or criminal act.
- **Intentional or Negligent Damage** - Will not cover repairs resulting from deliberate or negligent actions. This includes, but is not limited to, the removal of keys, removal of outer rubber, removal of screws, and/or opening the device.
- **No Case** - Students who do not use a case will be responsible for the full amount of the repair/replacement.
- **Cosmetic** - Damage that does not affect the functionality of the device. This includes but is not limited to scratches, dents, broken ports, port covers, asset tags and serial numbers.
- **Insect infestation** - will be liable for the full price of the device.
- **Loss** - will be liable for any device lost by the student.
- **Theft or Vandalism**—If the device is lost or damaged due to theft or vandalism, a \$50 fee will be assessed. A police report must be filed **within 48 hours and turned into the home campus**. Failing to do so will require full payment of the device cost.
- **“Jailbreaking”** or otherwise voiding the manufacturer’s warranty by altering the software.

Damaged Devices - Devices in need of repair must be turned in to the campus office. The Beaumont ISD IT Department will make all repairs and should not be taken to any alternate repair facility.

Device Protection Plan vs. No Plan at a Glance

Cost for Device Protection Plan

Annual Cost	Accidental Damage	Stolen	Not Covered
July 15 - June 30 \$30	One/First Incident: \$0 Additional Incident(s): Full Cost of repair or replacement.	Student/Guardian is still responsible for the replacement if the device is not found. A copy of the police report must be provided to the school within 48 hours of loss.	-Cords -Charger -Case -Asset Tag -Intentional damage -Loss or theft

Cost without Device Protection Plan - Prices are updated every 12 months and may change due to supply issues.

My School Bucks will ask:

- I wish to participate in the Device Protection Plan and have paid in full.
- I do **NOT** wish to participate in the Device Protection plan and understand that I am responsible for the full price of all damages to the device.

Note: Add the decision to the store and check out.

Availability

- This program is only available to students.
- This is non-transferable between students and may only be used once.
- The plan will not be offered after October 31st for students already enrolled. If enrollment does not occur during that time, the student will have opted out.
