Edmonds School District - Dual Language Program

Partner Teachers 4th-6th*	Once students reach 4th grade, their year-round instruction will be 50% in Spanish and 50% in English. If the programmatic decision is made to reach this percentage using the partner teacher model, students will switch teachers halfway through the school day. (partner teacher model) <i>*This is only applicable for 6th grade while it remains in the elementary school.</i>
Intervention Title/DL Guidance	Intervention is based on the needs of each student. Intervention is embedded in the instructional core throughout the day, based on student goals. Students who qualify for Title/LAP services receive intervention in the language of instruction. Spanish curriculum = Esperanza. English curriculum = 95%.
Total Instructional Minutes	The instructional minutes that make up the Spanish DLE 240 instructional minutes above include all core subjects. Note that specials are not included in the above table. The minutes dedicated to specials do not count towards English language development nor the 90/10 DLE model.
