

EPINEPHRINE TRANSPORTATION AND ADMINISTRATION PROTOCOL ACKNOWLEDGEMENT

Administration of Epinephrine Protocol for the Transportation of an Epi-pen to and from School:

- a. A current pre-filled, single dose auto-injector mechanism containing epinephrine. (Epinephrine can only be obtained through a prescription, therefore, the school district is unable to provide it. The parent(s) or legal guardian(s) is responsible for replacing a pre-filled, single dose auto-injector mechanism containing epinephrine when it has expired.)
- b. It shall be the parent(s) or legal guardian(s)' responsibility on a daily basis to hand the prefilled, single dose auto-injector mechanism containing epinephrine to the school bus driver or designated delegate..
- c. The bus driver or delegate responsibility shall be to safely secure the Epi-pen during transportation;
- d. Upon arrival at school, the bus driver or delegate will give a designated staff member the Epi-pen;
- e. The designated staff member shall take the Epi-pen to the school nurse;
- f. The school nurse shall secure the Epi-pen until the end of the day;
- g. At the end of the day the designated staff member shall take the Epi-pen to the bus driver or delegate;
- h. The bus driver or delegate shall secure the Epi-pen during transportation and hand the Epi-pen to the parent(s) or legal guardian(s) upon arriving at the bus drop-off;
- i. In the event that the pupil experiences an anaphylaxis episode the driver shall contact 911; and if the physician's written orders stipulate the trained delegate will administer the Epi-pen.
- j. If the physician's written orders do not stipulate that a delegate administer the Epi-pen the bus driver will shall inform emergency personnel when they arrive on the scene that he/she is transporting an Epi-pen for the pupil, and provide the emergency personnel with the Epi-pen.

I acknowledge that the Southampton School District and its employees or agents shall have no liability and indemnify and hold harmless from any claims pertaining to the administration of epinephrine via a pre-filled auto-injector mechanism providing the procedures specified in N.J.S.A.:40-12.5 and the Protocol for the Transportation of an Epi-pen to and from School in district policy #5330.1 are followed.

This authorization is valid for the _____ school year and I understand that if I choose to rescind this authorization that I must submit written notification to the school nurse.
