ROSLYN UNION FREE SCHOOL DISTRICT					
BOARD OF EDUCATION GOAL 2025-2026					
Administration	Curriculum & Instruction	Business	Community	Facilities	Technology
• Continue to sustain and expand emergency, security and other training protocols, procedures and awareness district-wide.	• Build upon existing practices and maintain flexibility of adaptable learning models to respond effectively to changing circumstances with awareness of federal, state and local guidelines.	• Continue to maintain, enhance and expand on-going cooperation with other school districts and municipalities to reduce operational costs and enhance efficiencies where possible through the shared services initiative.	• Continue to support community-based organizations through an on-going collaboration of community and administrative effort	• Continue to ensure continuous and efficient communication about current and upcoming construction projects.	• Continue to update, upgrade and explore instructional technology district-wide in order to support overall instruction in all modalities.
• Continue to sustain and expand managerial efficiency and compliance with contractual and statutory requirements.	• Advance the ongoing development of our robust, interdisciplinary K–12 curriculum continuum reinforcing essential skills and contemporary learning priorities.	• Continue to maintain the budget building process to clearly reflect actual, current and projected needs of the district.	• Continue to develop and build on established relationships with government agencies for the mutual benefit of our common taxpayers.	• Continue to maintain, improve, and expand our buildings and grounds to create a pleasing and safe environment in a cost effective manner.	• Maintain, update, expand and implement on-going security and cyber security enhancements district-wide.
• Advance the implementation and expansion of online training systems aligned with mandatory state and federal compliance standards.	• Strengthen established systems that support smooth student adaptation and readiness across the K–12 continuum.	• Continue to monitor and navigate the ongoing effect of the five-year financial plan, revenue and expenses, including the use of reserves, with consideration of the tax levy limit.	• Explore new initiatives to continue to maintain, review and expand the high level of the District's use of digital communication in an effort to keep our constituents informed about school district news, events and emergencies.	• Continue to review, maintain, expand and enhance clear security, health and safety protocols for effectively monitoring and managing building and grounds.	• Continue to monitor, explore and implement expansion of online student management systems.

• Continue the ongoing process to revise and update BOE Policies.	• Continue to enhance, expand and support the on-going meaningful opportunities for all students.	• Continue to monitor and navigate the financial climate for exploration of upgrades to and expansion of facilities.	• Launch and enhance the updated district website and continue to implement ways for it to be ADA compliant.	• Continue to explore and implement construction and renovation plans to enhance and expand our buildings and grounds.	• Continue to maintain and enhance on-going disaster recovery and storage back-up.
	• Continue to support and expand our commitment to student and staff wellness by enhancing initiatives that support health, resilience, and the overall learning environment.		• Maintain and enhance school news communication to the broader community and to the faculty/staff.	• In collaboration with the Business Office, continue to monitor all capital spending of current and future projects, capital construction needs district wide aligning with capital reserves and other potential revenue and efficiencies.	• Continue the process of digitalization of student records.
	• Enhance and enrich experiential and community-connected learning opportunities building on our established foundation of service-based and local engagement.		• Explore and implement ways to connect alumni with school community.	• Continue to explore every opportunity to manage construction, renovation, and maintenance projects in-house to improve cost efficiency and quality.
