Program length: 253 hours

Cost: \$3,900.00

EMPLOYMENT OPPORTUNITIES

This program is designed to provide professional tractor trailer driving training to students with or without prior truck driving experience. Students are prepared to pass the Class A Commercial Driver's License (CDL/A) written and road test required for entry-level tractor-trailer driving positions.

Curriculum includes preparation for the written and skills test and is taught by experienced driving instructors. Upon successful completion of the course, the student will receive a certificate of completion, name in the FMESA registry and drive tested. We understand that employment and life improving goals are a large reason to join the class.

With that, we can guarantee that all students will have ample opportunity of employment as we're constantly networking with corporations and small businesses that are always in need of more qualified truck drivers!
