"Is Groveport Madison an open enrollment district? I see comments on social media that claim they allow anyone in!"

Groveport Madison Schools is definitely not an open enrollment district. Our Student Services Department works diligently throughout the school year to verify residency for our families. In fact, 300 students have been withdrawn from Groveport Madison Schools as a direct result of residency affidavit verifications this school year. This process is conducted throughout the year and is also mandatory when a new student attempts to enroll at Groveport Madison Schools.
