What are Residency Affidavits? What are they used for?

We recently received a couple of questions about residency affidavits on social media. People were curious to know what they are and are used for.

Residency Affidavits are used in the enrollment process when the parent is not the mortgagor or leaseholder to establish and confirm student residency within our school district's boundaries. The family is living with family or friends and has established residency there. The parents and mortgagor or leaseholder must each complete the Residency Affidavit forms and have them notarized. In addition to the Residency Affidavit forms, the mortgagor or leaseholder must submit a mortgage statement and all pages of the lease (with students added to the lease). Additionally, a utility bill and mail in the parent's name must be submitted.
