Dr. Gabriel Stine
Allen Williams

August 2025

Dear Parents/Guardians,

This letter is to inform you that all Victor Elementary school buses will be equipped with surveillance cameras for the 2025-2026 school year. The surveillance cameras will improve safety and security for our students, drivers, and VESD staff. The intent of the use of video surveillance cameras is to deter anyone who does not have reason to board a VESD bus, to ensure proper driver protocols are being followed and to deter students, and parents/guardians from inappropriate behavior. All recordings may be used by the district and or law enforcement for disciplinary purposes whenever appropriate.

All bus cameras will be situated in specific areas and will take images to help maintain a safe and orderly environment. The installation of these surveillance cameras are just one means we are using to create a safe, secure, and orderly environment for students, staff, and drivers.

Sincerely,

Joe Pont
Director of Facilities, Maintenance, Grounds and Transportation
Victor Elementary School District
