ACADEMICS

Class Rank, GPA, & Grades

Due to our small size and rigorous, college-preparatory curriculum, Westminster does not rank students. The grades listed on the transcript are the final score earned with weight added. AP and DE courses receive five points of weight and honors courses receive three points. The cumulative GPA is calculated using weighted grades and averaging all core academic courses (including Biblical Studies courses) taken at Westminster.

Please note, Westminster has taken an active approach to resist grade inflation.

Grades printed on a student's transcript truly reflect competency and proficiency in the course.
